CRAFTING

Crafting has long been a major focus of the game, and something countless players have sought to engage with since the early days; after all, what adventurer wouldn't want to be better outfitted, better equipped and more prepared... and what adventurer wouldn't want the chance to put their personal mark on their gear?

The core principle of this crafting system is simplicity and specificity. Everything works with simple, easy to follow rules, but has enough depth to lift the burden from a GM having to fill in every blank by giving specific details for everything. While a GM is always the arbiter of what exists and if a crafting recipe works, by and large this system can be run with as much or as little input as a GM wants to add. It's a complete package that provides all the necessarily details for your players to get started—and plenty of tables and guides for GMs as well.

WHY DO YOU NEED CRAFTING?

Some people may wonder: why do you need a crafting system? Isn't that what loot is for? The truth is, in some games, that's true. Not every adventurer is going to want to pursue crafting. But with a crafting system, not only can you craft what you need without finding it in a dragon hoard, what you find in that dragon hoard can be so much more.

In a game with a robust crafting system, there is no junk, there are just more opportunities and fresh possibilities. A +1 shortsword that no one can use could be the valuable basis of a new spear. Gems, gold, relics, and recyclables... all valid entry points for the crafter's creativity.

Adventurers are inherently innovative folks on a quest for creative solutions to difficult problems. Crafting gives them that toolbox.

So... why do you need crafting? You don't. But you should probably want it.

WHO CAN CRAFT?

Anyone! Who can succeed in making something useful? Perhaps a bit of a different story. Crafting is not inherently tied to class, though in some cases some classes may give benefits to it (like Inventor); crafting may come from your background in the form of a tool proficiency, or it may be something you learn during your adventures following the old adage of necessity being the mother of invention.

Crafting is mostly about the time, effort, knowledge and materials. As such, most of crafting is knowing the recipe and having the time and materials needed... but a skilled craftsman works quicker and is more successful, and in this business practice makes perfect, so there are various progression modifiers that apply. Your GM can determine if your background would merit starting your adventure with any, otherwise guidelines for how to gain them are included.

WHAT CAN I CRAFT?

Anything! But this guide is made by a mere mortal, and is thus limited in scope. This guide will provide the principles of crafting for many fields—from alchemy to engineering to woodworking.

The basis of how crafting works is similar between each field, but the recipes, material, and most important results will be radically different... After all, a healing potion, a catapult, and a magic sword are all things you can craft, but the process for each varies quite a bit.

The goal of this document is to teach you how to get started, and provide the basics that will get you a long way into your adventure, but not make a complete codex of everything that could potentially be crafted. When you hit something that

doesn't appear in this document, just reference the closest items and make a bit of a leap to what extra steps might be needed to realize your vision into your game world!

A PLAYER-DRIVEN SYSTEM

One of the fundamental goals and inspirations of the crafting system is to make it a player-driven system.

It is a system where the player can say "I would like to harvest the monster for ingredients" and "I would like to forage as we go through the forest looking for alchemy reagents" and ultimately "I would like to make a healing potion" and all those rules can be exposed to the player allowing them to directly browse and consider what they want to make, as well as how to make it.

The GM still adjudicates many instances of them, but the ideal is to have a system in which the GM does not have to handcraft every instance of gathering materials and crafting.

WORKING WITH YOUR GM

While the system is meant to enable player-driven choice, always remember to work with your GM. Check in with them when selecting an item you would like to make and confirm that item exists in their world, and any assumptions hold true.

Some GMs may rule that some items have higher rarity or are simply not available at their default assigned rarity. A common example of this may be something like Winged Boots, which are only rated as Uncommon, but some GMs may feel they are a better fit for rare and adjust their difficulty accordingly.

HOOKING YOUR PLAYERS IN

On the other hand, if the GM wants to get the players into it, there are some tools they can use. By far the most effective tool is to give the players reagents as part of loot that don't have an obvious place to sell them. If you give players 2 curative reagents, they are going to start looking into how they can use those, as they'd much rather have a healing potion.

If you want to go one further though, if you give them 5 curative reagents and they realize they will have a remainder of one... then they start looking into "Well, how do we get a 6th!"

DEPTH AND COMPLEXITY

This system has two goals: to be simple and easy to use, and to be deep and extensible. Naturally these are somewhat at odds, and accomplished by having a great deal of optional depth. To produce standard items with standard effects, the process for finding or buying the materials and using them to make what you want to make will be straightforward.

How much of the detail you want to engage with as a GM can be easily adjusted by how you hand out reagents. By sticking to the standard ingredients and using their generic names, the materials are no more complicated than handing out gold or other rewards (and can even be fully converted easily to a gold-based system if you want the most simplified version), but if you'd like to have specific ingredient names and exotic ingredients there is information in the appendix you can draw from for that.

HOW TO CRAFT

Crafting under this system is very simple. You collect the ingredients for a particular thing you want to make, and use your skills with tools to make it into that item. The crafting time of this system is very compressed compared to the systems you might find in the base options because this system is not intended to use downtime to gate crafting.

Rather, this is built to work with an adventuring lifestyle. You might need a little time here and there, but it will be measured in hours rather than days and weeks. Consequently, the gates to crafted items are instead the materials and skill required rather than time and gold, though you can certainly use gold to buy those materials in some cases.

Following there is a quick summary, as well as more indepth break down of crafting time and checks, materials and where to find them, and finally the specifics of each branch.

GENERIC INGREDIENTS

Above and throughout the document, you will see that ingredients are referred to by generic tags like "common curative reagent" rather than specific natures. For example, you may harvest magical herbs, and find Kingsbane in the forest, a poisonous plant. For the purposes of crafting, this can be recorded simply as a "common poisonous reagent" and used as such in crafting.

This greatly simplifies the process of crafting and recording what your supplies are. Narratively speaking, a skilled alchemist can render down the ingredients they want to use in the form they need.

Each crafting profession will have some profession-wide materials that are used in their recipes: reagents for alchemy, metals for blacksmithing, etc.

Some very rare and legendary items will have specific ingredients; this is for flavor rather than balance, though it is up to your GM.

QUICK SUMMARY

Each step will be outlined in more depth, but the following serves as a summary and reference for the process.

- **Select an Item.** Find the item you would like to craft on a crafting table.
- **Check with your GM.** They will confirm if that item exists and has the default rarity in their game. This system is a tool, it does not supersede worldbuilding.
- **Gather the materials.** Materials can be looted from humanoids, harvested from more exotic creature types, purchased at stores, or gathered from the wilderness. The specifics of any material and where it can be found is covered in the materials section.
- **Begin crafting!** You can find the related tool and ability score on the table below. Use the related tool and skill to determine your crafting modifier using the following formula:

Crafting Modifier = your Related Tool proficiency bonus + your Related Ability Score modifier.

- You can make progress in 2 hour increments. For each 2 hours spent, make a crafting roll using the formula above and compare the result to the DC listed for the item
- On failure, no progress is made. If you fail three times in a row, the crafting fails and all materials are lost.
- On success, 2 hours of progress is made, and you can mark your progress put it aside or continue to craft.

- Once your completed progress on an item is equal to the crafting time listed, the item is complete.
- **You're done!** Enjoy your shiny new item!

SPECIAL REMINDERS:

- You can “take 10” on a crafting recipe by doubling the crafting time.
- The final say on any item is up to your GM. If they disagree with the written recipe, they are correct!
- Don't be afraid to ask where you can find materials—the GM wants you to engage with the world and find things!
- A crafting roll is a special kind of check. You can't apply boosts other than expertise to your crafting check. In general, the only way other than expertise to boost a crafting roll is to get help from another skilled crafter for the entire duration of the craft. Remember you can use the take 10 option to get slower more certain success, and if a craft has a higher DC than you can achieve using that method, it likely should involve some degree of difficulty and risk.

REFERENCE PRICES

The prices of this system reference the default prices presented for magic items in 5e, as follows. You don't need to use these prices if you use an alternate economy, but the prices presented are default for ease of use and conversion.

DEFAULT PRICING

Rarity	Consumable Price	Price
Common	25–50 gp	50–100 gp
Uncommon	50–250 gp	101–500 gp
Rare	250–2,500 gp	501–5,000 gp
Very Rare	2,500–25,000 gp	5,001–50,000 gp
Legendary	25,000+ gp	50,000+ gp

CONVERTING PRICES

There are alternative pricing models presented in the appendix. If you use a simple conversion, such as 1/10th pricing using some sort of silver-based pricing, you can simply divide based on that. If you have a more complicated pricing version, my recommendation is to pick a few core items and use them as a point of reference for a conversion formula (I'd recommend healing potions, +1/+2/+3 weapons, and plate armor).

VALUABLE GEAR

In some cases, you may want to make something that is more valuable. While selling more valuable gear may be quite difficult, as is often said, magic has expensive tastes. Many magic items that an Enchanter might want require items of a certain value.

Here's some examples of specific modifiers you can add to increase the value of an item:

Modifier	Material	Difficulty	Value Added
Bejeweled	Gemstones	+1 per gem	Value of Gem
Gilded	10 gold scraps	+2	+20

Additionally, you can generally increase the value of an item simply by making it more ornate and exercising greater craftsmanship. You can, when you start crafting an item, raise the DC and/or crafting time of that item artificially. When you do so, that item's value is recalculated using the Labor Cost Table in Appendix A.

Here is a list of example break points of more expensive mundane items using different variations of material cost, DC, and number of checks. These are all simply the iterations of the formula presented in Appendix A.

Name	Materials	Checks	DC	Price
Simple Item	1 sp	1	DC 8	2 sp
Complicated Item	1 sp	2	DC 15	36 gp
Difficult Item	1 sp	8	DC 15	150 gp
Fancy Item	100 gp	8	DC 15	250 gp
Lavish Item	250 gp	7	DC 15	500 gp
Masterwork Item	1 gp	5	DC 20	1000 gp

EXAMPLE

To walk through these prices:

- A simple item listed here has 1 sp of materials, and takes 1 check with a DC of 8. That is a labor cost of 1 sp, 1 sp of materials, and consequently, the item has a value of 2 sp.
- A fancy item here has 100 gp of materials, but also takes 8 checks at a DC of 15! That is a labor cost of 144 gp and a small risk multiplier (the chance you lose your materials) resulting in a value of 250 gp.
- The presented masterwork item has very little material cost with only 1 gp, but is extremely hard to make with 5 checks with a DC of 20, resulting in a massive labor cost of 995 gp, and a final value of 1,000 gp.

So, for example, if you needed a longsword that was worth 1,000 gp, you have a few options:

- You can add a gem worth 985 gp to the materials when crafting it, resulting in 15 gp + 985 gp.
- You could raise the checks to 5 and the DC to 20.
- You could spend 250 gp of materials, raise the DC to 19, and spend 6 checks making it resulting a sword worth 1,103 gp.
- These cases are largely something you only need to consider when making items for enchanting, and it's all quite a bit simpler than it might seem, as it's just expressions of the formula presented in Appendix A.

MAKING YOUR OWN ITEMS

This system is designed to be extensible. While it contains many things, it does not (and cannot!) contain all the things. You can find the rules for building new items in Appendix A: Creating New Items.

ITEM KEY

At some points on the tables that follow you will see some notification such as ^K. This represents an item that is not core to 5e and has been added by the creator of this Compendium (standing for Kibbles). Some other keys:

- GS = Griffon's Saddlebag. Content used with permission from Griffon's Saddlebag
- DS = Dungeon Strugglers. Content licensed or commissioned from Dungeon Strugglers.
- TAG = TheArenaGuy. Content provided by TheArenaGuy of Spectre Creations.

Use of these items is optional, they exist to flesh out the lists, show how to extend the system, and, in the case of the contributed items, because they are cool items!

CRAFTING TIME

All items have a crafting time measured in hours. Crafting is completed in 2 hour chunks. Some branches of crafting must make all their checks consecutively (like Alchemy) while some do not (like Blacksmithing or Enchanting). A crafting roll is made every 2 hours of work on an item.

On success, you mark 2 hours of completed time. Once the completed time is equal to the crafting time, the item is complete. On failure, the crafting time is lost and no progress has been made during the 2 hours.

If you fail three times in a row, the crafting is a failure and all materials are lost.

CRAFTING DURING A REST

During a long rest, you can make up to 2 hours of progress during a crafting project if you do nothing else during the long rest besides craft and sleep. During this time, you have disadvantage on any Wisdom (Perception) checks and a -5 to all Passive Perception checks as you are focused on your craft.

You can make 2 hours of progress on any crafting project by taking this camp action. For most projects, this progress can be banked completing the project 2 hours at a time. For some types of crafting, like alchemy, you can't make incremental progress, but you can continue for 2 additional hours of crafting before or after a long rest in which you took the camp action "craft" to get 4 hours (for example).

CAMP ACTIONS

A recommended system is the Kibbles Camp Actions which can be found here and provide more formalized rules for how to make use of your time during a long rest.

CRAFTING ROLLS

Each profession lists the related ability modifier and tool used to calculate your crafting roll modifier. In many cases, attempting to craft without the applicable tool is impossible. Your GM may allow improvised tools, and in that case the check is made with disadvantage.

Beyond the tool, most branches of crafting require a heat source, and some require more infrastructure. These are generally approached logically and are at the discretion of the GM. For an adventurer looking for more portable workshop tools, investigate the Crafting Magic Spells and Crafting Utility Magic Items sections; these offer additional avenues for increased portability.

Here is a list of some of the additional requirements by branch:

- Blacksmithing can perform minor crafts with a simple heat source, but requires a forge and anvil to make new items.
- Alchemy and Cooking almost always requires a heat source.
- Tinkering, Jewelcrafting, and Poisoncraft sometimes require a heat source.
- Enchanting, Scroll Scribing, Woodworking, Wand Whittling, Poisoncraft, Leatherworking, Engineering, Runecarving rarely require anything besides the tools of the profession.

EXPERTISE

Features that grant tool expertise (the ability to add twice your proficiency bonus to ability checks made with a tool) are calculated into your crafting roll modifier, but do not add to an the calculated DC the effects of that item have.

BONUSES

A crafting roll is a special type of ability check and you can't add temporary bonuses to your roll (such as Bardic Inspiration or the spell *guidance*) as the crafting roll represents the entire time you spend working the item.

In general, the intention is that no external bonuses apply, unless they specifically state they do. This would include feats (such as ones that allow you to reroll certain rolls), class features (such as ones that allows you to add dice to certain rolls), etc. A GM can apply these bonuses, but they are not intended to work, and can result in checks becoming too easy.

You can gain an advantage if another player with proficiency in the related tool helps for the whole crafting time.

TAKING 10

When you craft something, double the crafting period (from 2 hours to 4 hours per check) to "take a 10" on the crafting roll, meaning that your crafting checks are 10 + your related ability score + your related tool proficiency bonus. This provides a floor level that you can always succeed on if you choose to take your time.

If someone with proficiency is aiding you for the entire duration of the crafting, the crafting check doesn't gain any bonus, but can be completed in the standard 2 hours.

NPC CRAFTING

It should always be assumed that when NPCs are crafting, they take this option, and thus craft more slowly but reliably. The slap-dash speed crafting is largely the domain of the players, though at the GM's discretion the players may convince a NPC to craft faster assuming the risk of their materials.

WORKDAYS

When a character is spending all day working, they make 8 hours of progress, and cannot exceed 8 hours working on a crafting project during a day. Players will occasionally want to work longer than 8 hours, but this fails to account for the limitations of mortals: player characters still need to eat, sleep, and will eventually lose their focus and ability to work. This is primarily implemented for balance reasons, but also helps model how much productive time a character can spend; they are not just working 8 hours straight and idling for 8 hours, but rather a model of the natural flow of a day, taking breaks, etc.

A GM can choose to overrule this and allow extreme crafting days in special circumstances, but in almost all cases working over 8 hours on a crafting project would leave a character with one or more levels of Exhaustion.

MATERIALS

Without materials, there is nothing to craft from. Crafting does not make things from thin air, it makes more useful things from less useful things. Gathering the materials will be the essential first step in any job. Materials are generally found in three ways.

LOOT & SALVAGING

Nothing is useless when you have a party of crafters. One of the main sources of materials will be the things you find. Nothing is useless when you have an expert craftsman in the party.

GATHERING & HARVESTING

How something is gathered varies on the profession; in many cases, it can only be gathered when the opportunity arises. Dragon scales, for example, are a lot easier to gather when there is a dead dragon nearby. Be it harvesting rare herbs, monster parts, or minerals, gathering is an opportunity you won't want to pass up.

PURCHASING

Rarely will everything you need to craft what you want fall into your hands without the assistance of the oldest and most powerful tool of any craftsman: money. When you don't have what you need, frequently you can buy it. For some professions, there will be a lot more materials that can be purchased, while others will rely more on the other routes.

SELLING AND BUYING MATERIALS

In general, the buying price of a material is its listed value, and its selling price is usually half of that to an interested property.

Between negotiation, market fluctuation, and GM moods, you may get better or worse prices. Note that many materials are simply junk to a party that does not have a use for them, and will only sell to interested parties that can use or resell them.

Threatening to burn down a merchant's shop because they will not offer you the listed price may result in an Intimidation check, but does not change market realities and is typically not beneficial to your reputation; most merchants that have the gold to buy and sell expensive materials have dealt with adventurers before and are not easily intimidated.

The sources of materials are tied to the pillars of the game. Looting and Harvesting are tied into the combat pillar, Salvaging and Gathering are tied into the exploration pillar, and purchasing and rewards are tied into the social pillar. This provides a lot of routes to add these materials to your game based on what works best for your group.

TYPES OF MATERIALS

REAGENTS

Reagents are a huge range of things; most often they are plants that contain some magical essence, but almost as frequently they are harvested from various magically inclined monsters. The exact source of a reagent usually does not matter beyond defining its type, as the part of the reagent used is the fragment of magic contained within that is distilled out.

There are many different ways to make a potion. Consequently, the materials are sorted into categories. These categories include curative, reactive, and poisonous. These each come in the standard material rarities: common, uncommon, rare, very rare, and legendary.

Reagents can't be salvaged once they have been combined into another form (such as potions, essences, or ink).

Reagents can be assumed to weigh 0.2 pounds each.

INTERCHANGEABLE REAGENTS

All curative, reactive, and poisonous ingredients are interchangeable. This is intentional to drastically simplify the crafting process and tracking thereof. Individual names are included only to deepen the immersion of the finding and buying ingredients, and can be treated as interchangeable by their label if preferred.

MAGICAL INK

While ink has many uses, crafting is mostly concerned with magical ink which has the power to hold the arcane words of scrolls. This is synthesized by alchemists from the magical properties of reagents, as it is concerned with extracting their magical properties, the exact nature of the reagents used do not effect the final ink beyond its potency.

Magical ink is not typically found or harvested on its own, though it may be found as loot, and in some instances a GM could rule that some blood collected from a fiend, celestial or dragon could be counted as such. It is generally created from reagents or purchased from alchemists that create it from reagents.

Magical ink can't be salvaged once they have been combined into another form (such as potions, essences, or ink).

Magical Ink can be assumed to wight 0.1 pounds each.

ESSENCES

While reagents are substances that contain a glimmer of magical power that can be harnessed through refinement, Essences are more purified forms of magical power.

These come in three types: Arcane, Divine and Primal as well as in the five normal rarities (common, uncommon, rare, very rare, and legendary). These essences are the pure stuff of magic that makes things work.

You can get these by rendering down magical reagents, salvaging magic items, harvesting them from magical monsters, or through the hard work of spell casters. Or you can find them as loot from people that have already done one of those harder steps. The rules for creating them yourself are under Enchanting, as it is their domain and skill set needed to do so.

While all branches occasionally use essences when extra magical power is needed, they are the primary material of Enchanters, and their pricing can be found in that section.

Essences can be found as loot during the courses of your adventures, but can also be harvested (from monsters), salvaged (from magical equipment), synthesized (from reagents), or created from the raw power of a spell caster, though the method is long and arduous.

Essences are flexible in their exact nature. There are many paths to each desired outcome, and this flexibility is represented in Essences. While the traditional way to make a *belt of hill giant strength* may call for a hill giant heart as its essence, an enchanter may substitute a dragon heart as their primal essences to make a *belt of dragon strength* that just has the same statistical effect.

Essences can be assumed to weigh 1 pound each.

SALVAGING ESSENCES

You also may be able to salvage magical essence from unwanted or broken magical items, though such a reclamation process can be difficult, and rarely results in more than a fraction of the essence infused into the original item. An item returns one essence equal to its rarity when harvested. The process takes 2 hours to complete, and doesn't work if the item is currently attuned to any creature. An essence can only be salvaged from permanent magic items; a permanent magic item is one that recharges or doesn't have a limitation on its charges or uses. A magic item with charges or uses can only be salvaged while it is at full charges or uses.

The item becomes nonmagical after the essence is salvaged from it. If it required magic to function or exist, it is destroyed.

SYNTHESIZING ESSENCES

In addition to harvesting essences from magical monsters fully intact, a more approachable and incremental way is to combine several reagents to get an essence. You have to combine three reagents of the same rarity to gain one essence of that rarity. You can combine reagents in the following ways:

Essence	Component Reagents
Arcane	1 curative, 1 poisonous, 1 reactive
Primal	3 reactive
Divine	2 curative, 1 reactive

This process takes 4 hours, and requires alchemist's supplies and a heat source.

MAKING ESSENCES

Another potential source of an Essence is being created by a spellcaster. This process is long and arduous, and typically only suited to downtime. A creature with the spell casting feature can create 1 essence during 1 workweek (5 days, 8 hours a day); this process can't be completed faster and for the duration they are considered to have spent all of their spell slots.

At 1st level or higher can make a common essence in this way, a caster 5th level or higher can make an uncommon essence this way, a caster at 11th level can make a rare essence in this way, and a caster at 17th level or higher can make a very rare essence this way. Legendary essences require special rituals, more casters, and take far longer; they are exceedingly hard to make.

The type of essence produced depends on the source of the spell casting levels as per the table below:

Caster	Essence Type
Inventor ^K	Arcane
Bard	Arcane
Cleric	Divine
Druid	Primal
Monk	Psionic
Occultist ^K	Any*
Paladin	Divine
Psion ^K	Psionic
Ranger	Primal
Sorcerer	Arcane
Warlock	Varies*
Sorcerer	Varies*
Wizard	Arcane

SPECIAL CASES EXPLAINED

- **Sorcerers** produce a type based on their subclass; Dragon or Wild makes Primal, Divine Soul makes Divine, and Shadow makes Arcane.
- **Warlocks** likewise produce a type based on their subclass; Archfey makes Primal, Celestial makes Divine, and all others make Arcane.
- **Occultist** can produce any type, but takes 1.5x as long to produce an Essence in this manner. A GM can rule based on the special circumstances of a character their power source may be different than normal. This can stand in for Shaman, Witch, or Oracle classes if you use those instead of Occultist.
- **Inventor** can stand in for any half-arcane caster of a similar theme.
A half- or third-caster would generate essences at 1/2 or 1/3 their character level, respectively.

INGOTS

Ingots are chunks of metal that can be used to craft things. They are assumed to be relatively pure and weigh 2 pounds each. The default ingot listed in all the crafting tables is an ingot of Steel. These cost 2 gp per ingot. There are cheaper metals (such as Iron); pure Iron can't be used to craft weapons and armor, but can be used for other items, resulting in a cheaper item. On the other end of the spectrum, more advanced metals such as Mithril and Adamantine can be used conferring special properties, but being far more difficult to work with and costing more.

Ingots can be assumed to weight 2 pounds each.

SALVAGING INGOTS

Metal items can be converted back to ingots quite efficiently, but require a forge to do so. With a forge and 2 hours per item, a metal item can be rendered down into its component ingots. Advanced metals may require special tools to smelt.

SMELTING ORE

Creating ingots from raw ore is largely out of scope for most adventurers, but you can create ingots from raw ore with a suitable facility. For more details see the Components and Materials table under Blacksmithing.

HIDES & LEATHERS

Hides, scales, and carapaces all tend to be harvested from monsters. Leather is a product of hides that can be processed from what it is harvested from the monster.

The GM determines if a monster provides hide, scale, or carapace. Hides do not come in different sizes, rather larger creatures simply provide more hides, and monsters that are not large enough to produce one hide provide only hide scraps.

Scales are likewise abstracted: each increment is simply an arbitrary unit of scales that the unit of scales covers. Scales can be much larger or small from different-sized creatures.

The system does not attempt to say how many scales a creature provides or how many literal actual scales makes up scalemail, but rather provides a number that is then consistently used.

Creatures are harvested using a Survival check, with its DC listed below. If the DC check is failed, the harvest does not fail entirely, but instead they get 1d4 hide scrapes in place of any hides, carapaces of one size smaller, and half as many scales.

Hide and leather materials can be assumed to be about 2 pounds each.

PROCESSING HIDES

The process of turning hide into leather takes quite awhile (as per the crafting table), and is often something adventurers can delegate to NPCs (delivering hides to be processed) or do during downtime. If you would like a more expedited system, there is no balance reason for this, and you can shorten the leather crafting process to taking 2 hours, it just won't be exceedingly realistic.

PARTS

The term “parts” is used to refer to gears, wires, springs, windy bits, screws, nails, and doodads. Parts can be either found or salvaged or forged from metal scraps (or even straight from ingots by a Blacksmith for those that really want to be industrial about it). The exact nature of each item making up this collection is left abstracted.

In addition, metal scraps are collections of salvaged material that generally fall into the category of things “too small to track” which can then be used for the creations of tinkers. In addition to all of this, occasionally tinkers will use ingots... particularly ones of tin (which is their namesake, after all).

Like other crafting branches, there are also named components for more iconic pieces of gear—the stock of a crossbow, for example, or other items. The cost for these items can be found on the common component table, and are generally minor.

Lastly, Tinkerers use essences when constructing things that push beyond the mundane principles of plausibility, crafting magical properties into their inventions.

NAMED COMPONENTS

In almost all cases, named components (such as a “wooden stock” for a crossbow) can be simply abstracted out as a minor cost, but, as always, the level of abstraction is up to the GM.

SALVAGING PARTS

The other main way to acquire parts is to salvage them. What can be salvaged is determined by the GM, but in general common items provide parts, uncommon or expensive items may provide fancy parts, and esoteric parts are found only from esoteric sources at your GM's discretion. Tools, vehicles, and complex items generally return 1d4 metal scraps and 1d4 parts for a Small or smaller item, 2d6 metal scraps for a Medium-sized item, 3d8 metal scraps for a Large-sized item, and more for larger items, though they may return less of rare types of parts.

WOOD

Commonly available in its lowest quality (firewood), higher quality woods are often found in rather exotic locations. Wooden branches (including wood scraps) are assumed to be of a useful wood that can be worked, while firewood covers everything else, with more useful woods falling into categories such as “quality branches” or rarer options. Wood scraps are assumed to be scraps of common branch quality wood, and consequently can't be salvaged from firewood.

Wooden branches can be assumed to weigh 2 pounds each.

SALVAGING

For the most part, wood can't be easily salvaged. Wood carving is not necessarily a reversible process, and wood can't be smelted down.

You can render wooden crafted product into wood scraps equal to 4 x the number of branches used to create it.

QUALITY BRANCH

A quality branch refers to one that can be made into more precious objects, particularly bows. It is nonmagical in nature, but typically yew when dealing with bows, though ash, mulberry, elm, oak, hickory, hazel, and maple can be used under broader definitions.

HARVESTING & LOOTING

Harvesting and looting are two paths to the same place, but generally depend on what kind of foe was vanquished and you are now collecting the “stuff” of. Typically humanoid creatures that carry stuff are candidates for the Individual Treasure tables, while Aberrations, Beasts, Dragons, Monstrosities, and Plants are harvesting candidates.

If you don't normally provide loot equivalent to default treasure tables, you don't need to start providing loot equivalent to them using these new tables, simply apply these tables as frequently as it makes sense for your game.

Remember that you can fully mix and match as it makes sense. You can replace coinage with gems or art pieces, you can replace crafting items that wouldn't make sense with coinage, gems, or art pieces, etc. The tables are merely a guide and convenience for what sort of range of materials should come from what sort of creature.

HARVESTING

The Harvesting tables replace the Individual Treasure for Aberration, Beast, Dragon, Monstrosity, and Plant type creatures.

REMNANTS

Remnants optionally replace the Individual Treasure table for creatures that leave behind no body on death, like Elementals, Celestials, or Fiends (ones that leave behind a body can use the Harvesting table).

LOOT

The Loot tables optionally replace the Individual Treasure for humanoid type creatures. You can use this table in all cases or in some cases.

RECOMMENDATION

I would recommend using the table for all humanoid enemies, but using the Equivalent Gold Value for roughly half of enemies to keep gold flowing into the PCs pockets while also providing abundant crafting supplies.

HOARDS

Rather than replacing the hoard tables, simply use the default hoard table and replace an amount of coins, gems, and art pieces with crafting materials. This ensures that players are still getting the sort of loot they expect, but also fills in new materials into things that would often fill little role beside being converted to coinage at a later date.

BASIC HARVESTING

Beasts, Dragons, and Monstrosities can be harvested using Wisdom (Survival) for meat and hides. At a GM's discretion, a Plant type creature can be harvested for food using the same DC and amount, but providing common fresh ingredients instead of meat. Basic Harvesting takes 10 minutes. At your GM's discretion, it may take longer for larger creatures.

EXOTIC CREATURE HARVESTING

Applicable Targets: Aberration, Constructs, Dragons, Monstrosities, Plants, Some Undead

A random roll is performed to judge what can be harvested from the monster. For Dragons, Giants, and Monstrosities, a Wisdom (Medicine) check is required to harvest the material without destroying it, for Aberrations and Constructs, an Intelligence (Arcana) check is required, and for Plants an Intelligence (Nature) check is required. Exotic Harvesting takes 10 minutes. At your GM's discretion, it may take longer for larger creatures.

If a beast is sufficiently magical, poisonous, or venomous, a GM can opt to use the Dragon & Monstrosity table for exotic harvesting, but this should be rare; even a poisonous beast is usually too mundane for the magical properties of harvested materials, and a beast should always be rolled on the 0–4 CR table regardless of its CR.

At a GM's discretion, some Undead may be harvested as well if there is something that would make sense for them to provide in this manner, in which case they would use an Intelligence (Arcana) check. Undead are less likely to provide anything of use, simply having a rare chance of providing arcane essences, though some would consider the use of these essences evil.

DOUBLE HARVESTING

If a monster is applicable for both Basic Harvesting and Exotic Harvesting, you can perform both, but the second check has disadvantage on the roll to successfully gather the materials.

EXOTIC REMNANTS

Applicable Targets: Celestials, Elementals, Fiends, Some Undead

Some creatures typically do not leave behind corpses. While these most often disappear without a trace, sometimes they will leave behind a fragment of the magical forces that powered them as a remnant, in the form of a reagent or essence. These are less likely to result in a crafting item, but don't require any check to gather it successfully. Gathering remnants is simple to do, and requires only 1 minute.

APPLYING MATERIAL TABLES

As a GM, never feel compelled to roll on a table if you feel it makes sense to do something else. The tables provide a baseline, but if you feel that it makes sense of a given monster to leave behind a given material, simply do so, requiring the check that seems most appropriate (using the tables as a guide if you wish).

GATHERING TABLES

Many of the materials can simply be found growing in the wild, and can be gathered by someone that knows what to look for and spends the time doing just that. When traveling at a slow pace through wilderness for 8 hours or more (i.e. not urban land or farmland), you can make a gathering check, but have disadvantage on the check to harvest anything found.

If you dedicate 8 hours to gathering without traveling, you can make two checks (without disadvantage) or find one item other than an essence of your choice that is available within that biome's table (making the ability check from the corresponding line of the table to harvest it) or 1d12 of any trivial item (making a DC 8 ability check to harvest it)

The found items then have to be gathered. You can choose to gather reagents, search for materials, or hunt wild game. Roll a d100 and consult the corresponding table below for the relevant biome to determine what is found.

GATHER REAGENTS

Reagents are harvested by making a Wisdom check. If you have an Herbalism kit and are proficient with it, you can add your proficiency bonus to the roll.

SEARCH FOR MATERIALS

Materials can be harvested with your choice of a Strength, Dexterity, or Wisdom check. If you have proficiency with the Survival skill, you can add your proficiency bonus to the roll.

HUNT GAME

Food can be gathered with your choice of a Dexterity or Wisdom check. If you have proficiency with the Survival skill, you can add your survival modifier to the roll.

INTENTIONALLY SLOW

Gathering is a time gated system. It is not intended to be the primary source of materials. Rather than being balanced against the loot tables, it's balanced against the down time activities (and consequently not particularly efficient).

ALCHEMY

Alchemy is a crafting art that almost all adventures have some degree of interest in the results of. The source of the ever in demand Potion of Healings, it is a versatile trade that fuels (sometimes quite literally) the adventuring life.

It doesn't take many experiences with the powers of potions for an adventurer to consider if they can get away with simmering a Potion of Healing next to the stew over that night's cooking fire... of course it's easier said than done for the result of such things to come away not poisonous.

Alchemy tends to be a very quick form of crafting, but with this comes additional risks with most crafts resting on a single roll, and failure resulting in the loss of all materials. Although taking that chance is frequently worth it during a busy adventuring season, consider the "Taking 10" option outlined in the craft introduction when speed is not of the essence.

RELATED TOOL & ABILITY SCORE

Alchemy works using alchemist's supplies. Attempting to craft a potion without these will almost always be made with disadvantage, and proficiency with these allows you to add your proficiency to any alchemy crafting roll.

Alchemy uses your choice of your Intelligence or Wisdom modifier.

QUICK REFERENCE

While each step will go into more depth, the quick reference allows you to at a glance follow the steps to make a potion in its most basic form:

- Select a potion that you would like to craft from the "Potions Crafting Table".
- Acquire the items listed in the materials column for that potion.
- Use your alchemist's supplies tool to craft the potion using the number of hours listed in the Crafting Time column, or during a long rest using the crafting camp action if the crafting time is 2 hours or less. Alchemy items must be crafted in a single session.
- For every 2 hours, make a crafting roll of 1d20 + your Intelligence or Wisdom modifier (your choice) + your proficiency bonus with alchemist's supplies. You can abort the craft after a bad crafting roll if you wish, this counts as a failure.
- On success, you mark 2 hours of completed time. Once the completed time is equal to the crafting time, the magic item is complete. On failure, the crafting time is lost and no progress has been made during the 2 hours. If you fail 3 times in a row, the crafting is a failure and all materials are lost.

SHELF LIFE & EXPIRED POTIONS

A unique attribute to alchemy, potions once crafted have a shelf life of 1 year before coming expired. This shelf life is shortened to 1 month if the potion contains any reactive ingredient.

If an expired potion is used or consumed within double its shelf life, roll a d4. On a 1, you become poisoned for 1 minute. On a 2 or 3, the potion will work with reduced effect; its duration will be halved if it had a duration, and damage or healing it dealt will be halved. On a 4, it works as expected.

Any potion that is older than twice its shelf life has no effect besides causing the imbiber to become poisoned for 1 minute.

CRAFTING ROLL

Putting that together means that when you want to work on Alchemy, your crafting roll is as follows:

Alchemy Modifier = your Alchemist's Supplies proficiency bonus + your Intelligence or Wisdom modifier (your choice)

SUCCESS AND FAILURE

For Alchemy, after you make the crafting roll and succeed mark your progress on a crafting project. If you succeed, you make 2 hours of progress toward the total crafting time (and have completed one of the required checks for making an item). Checks for Alchemy must be consecutive, meaning that if you wish to continue after a failed craft, you need to extend your crafting time.

Failure means that no progress is made during that time. Once an item is started, even if no progress is made, the components reserved for that item can only be recovered via salvage. If you fail three times in a row, all progress and materials are lost and can no longer be salvaged.

ALCHEMY SAVING THROW

Some alchemical creations trigger a saving throw. In instances that they do, the following is the formula for calculating the saving throw. The saving throw is calculated at the time of creation based on the creators attributes and proficiency, and doesn't change once it is created.

Alchemy DC = 8 + your Alchemist's Supplies proficiency bonus + your Intelligence or Wisdom Modifier (your choice)

HERBALIST'S LIMITED ALCHEMY

While herbalism is primarily used for gathering herbs, a creature with proficiency with herbalism kits has a limited proficiency in creating potions in addition to gathering herbs. You can use proficiency with an herbalism kit in place of alchemist's supplies when creating *potions of healing*, antidotes, antitoxins, and vials of poison.

When crafting in this way, you use an herbalism kit and proficiency with it in place of alchemist's supplies. This crafting otherwise works the same as using alchemist's supplies.

You can add additional reagent modifiers when crafting in this way.

CRAFTING WALK THROUGH: ALCHEMY

Here's a quick example of how alchemy will often play out in a game.

Caius the Wizard is saved from being eaten by a giant plant monster. He wants to know if his suffering was worth anything, so he asks the GM if there was any loot. There wasn't. Was there anything to harvest from the monster? Well, that's always possible. The GM asks for a d100. Caius rolls a 54.

It was just a CR 4 monster, so the GM consults the table and asks for a DC 8 Nature Check. Fortunately Caius the Wizard has a +3, so only needs a 5, and rolls an 8. Harvesting successful and now he has 1 common curative reagent.

Knowing that he's going to need some healing potions to survive the next plant monster, he consults the table and realizes that with just 2 more curative reagents and a glass vial he'd have enough materials.

Next time they walk through a forest, Caius the Wizard asks the GM if there are any reagents about. Slowing down to a slow pass, he can make a gathering check with disadvantage, and attempts to gather reagents. Rolls the d100, and comes up with a 73. The GM asks for a DC 10 gathering check using herbalism kit, with disadvantage as they were travelling. Caius doesn't have proficiency, but has +1 wisdom, so needs a 9 or higher. He rolls a 14!

The results in 1d4 common curative reagents. He rolls a 2. That's all the curative reagents he needed! He cleans out the remains of an old healing potion to get a glass vial, and next time they camp, he spends his camp action (2 hours) trying to make a healing potion.

He needs to succeed only once, DC 13. Fortunately he has proficiency in alchemist's supplies, and a +3 Intelligence, meaning his check is at +5. He needs an 8 or higher.

...He rolls a 3. This a failure! But all is not lost, he can keep trying until he fails 3 times in a row... but he's already spent his 2 hours, and alchemy checks must be made consecutively.

Not wanting to lose his precious hard won reagents, he stays up late making another check. He rolls a 10! This results in a 15! He's successfully made a Healing Potion!

Unfortunately he's stayed up too late, but the next morning the party lets him sleep in to avoid the level of exhaustion.

Two days later, Vandrin the Cleric, the groups only healer, is on death's door! A quick swig of the healing potion gets him back on his feet, and the day is won thanks to the hard work of making a potion, and adventurers keep a keen eye out for more of those curative reagents!

DRAUGHT OF DAMNATION^K

Potion, rare

This sticky red liquid has a living viscosity to it, churning slowly within the flask. When you drink this potion, you become a fiend (as if by the spell *shapechange* for 1 hour). The type of fiend you become is determined by your level. The new form is a random fiend with a Challenge Rating equal to your level, up to a maximum of 10. If there are multiple options at that Challenge Rating, roll to determine which option is selected.

When the effect ends and you revert to your normal form, you take 1d6 necrotic damage equal to the CR of the fiend who's form you assumed as the toxins of pure evil attempt to destroy your body before relinquishing control of it. If this damage kills you, your soul is dragged to the realm of the fiends by the malignant will of the fiend.

HEALING POTION

Potion, common

You regain 2d4 + 2 Hit Points when you drink this potion. The potion's red liquid glimmers when agitated.

Quality	Rarity	Hit Points Restored
Common	Common	2d4 + 2
Greater	Uncommon	4d4 + 4
Superior	Rare	8d4 + 8
Supreme	Very Rare	10d4 + 20

PANACEA^K

Potion, legendary

When you drink this potion, you regain all lost hit points, all status effects are removed, all reductions to ability scores are removed, any missing limbs are restored, all diseases are cured, all curses are removed, and all levels of exhaustions are removed, and you cease to age for 1 year. This potion can remove effects that can otherwise only be removed by wish.

If you ever drink a second panacea potion, make a DC 30 Constitution saving throw. On failure, you gain no benefits from it and die.

POTION OF ANIMAL FRIENDSHIP

Potion, uncommon

When you drink this potion, you can cast the *animal friendship* spell (save DC 13) for 1 hour at will.

A murky, muddy potion, it leaves various animal shapes and tracks on the side of the container as it swirls.

POTION OF CLAIRVOYANCE

Potion, rare

When you drink this potion, you gain the effect of the clairvoyance spell. An eyeball bobs in this yellowish liquid but vanishes when the potion is opened.

POTION OF CLIMBING

Potion, uncommon

When you drink this potion, you gain a climbing speed equal to your walking speed for 1 hour. During this time, you have advantage on Strength (Athletics) checks you make to climb. The potion is separated into brown, silver, and gray layers resembling bands of stone. Shaking the bottle fails to mix the colors.

POTION OF DIMINUTION

Potion, rare

When you drink this potion, you gain the “reduce” effect of the *enlarge/reduce* spell for 1d4 hours (no concentration required). The red in the potion's liquid continuously contracts to a tiny bead and then expands to color the clear liquid around it. Shaking the bottle fails to interrupt this process.

POTION OF FLYING

Potion, very rare

When you drink this potion, you gain a flying speed equal to your walking speed for 1 hour and can hover. If you're in the air when the potion wears off, you fall unless you have some other means of staying aloft. This potion's clear liquid floats at the top of its container and has cloudy white impurities drifting in it.

POTION OF FIRE BREATH

Potion, uncommon

After drinking this potion, you can use a bonus action to exhale fire at a target within 30 feet of you. The target must make a DC 13 Dexterity saving throw, taking 4d6 fire damage.

on a failed save, or half as much damage on a successful one. The effect ends after you exhale the fire three times or when 1 hour has passed. This potion's orange liquid flickers, and smoke fills the top of the container and wafts out whenever it is opened.

POTION OF GASEOUS FORM

Potion, rare

When you drink this potion, you gain the effect of the *gaseous form* spell for 1 hour (no concentration required) or until you end the effect as a bonus action. This potion's container seems to hold fog that moves and pours like water.

POTION OF GROWTH

Potion, rare

When you drink this potion, you gain the “enlarge” effect of the *enlarge/reduce* spell for 1d4 hours (no concentration required). The red in the potion's liquid continuously expands from a tiny bead to color the clear liquid around it and then contracts. Shaking the bottle fails to interrupt this process.

POTION OF HEROISM

Potion, rare

For 1 hour after drinking it, you gain 10 temporary hit points that last for 1 hour. For the same duration, you are under the effect of the *bless* spell (no concentration required). This blue potion bubbles and steams as if boiling.

POTION OF INVISIBILITY

Potion, very rare

This potion's container looks empty but feels as though it holds liquid. When you drink it, you become invisible for 1 hour. Anything you wear or carry is invisible with you. The

effect ends early if you attack or cast a spell.

POTION OF RESISTANCE

Potion, uncommon

When you make this potion, you can make it resist one particular damage type. For necrotic or radiant resistance, substitute an uncommon divine essence for the primal essence. For force resistance, substitute an uncommon arcane essence. For psychic, substitute an uncommon psionic essence.

The color of the potion depends on what kind of resistance it is, often having that element swirling within it.

When you drink this potion, you gain resistance to the selected damage type of the potion for 1 hour.

POTION OF SPEED

Potion, very rare

When you drink this potion, you gain the effect of the *haste* spell for 1 minute (no concentration required). The potion's yellow fluid is streaked with black and swirls on its own.

POTION OF WATER BREATHING

Potion, uncommon

You can breathe underwater for 1 hour after drinking this potion. Its cloudy green fluid smells of the sea and has a jellyfish-like bubble floating in it.

POTION OF MIND READING

Potion, rare

When you drink this potion, you gain the effect of the *detect thoughts* spell (save DC 13, no concentration required) for 1 hour. The potion's dense, purple liquid has an ovoid cloud of pink floating in it.

POTION OF POISON

Potion, uncommon

This concoction looks, smells, and tastes like a potion of healing or other beneficial potion. However, it is actually poison masked by illusion magic. An *identify* spell reveals its true nature.

If you drink it, you take 3d6 poison damage, and you must succeed on a DC 13 Constitution saving throw or be poisoned. At the start of each of your turns while you are poisoned in this way, you take 3d6 poison damage. At the end of each of your turns, you can repeat the saving throw. On a successful save, the poison damage you take on your subsequent turns decreases by 1d6. The poison ends when the damage decreases to 0.

CONCOCTIONS

ALCHEMICAL ACID^K

Concoction, common

A small flask of burbling acid, a strange hissing green viscous liquid. It deals 4d4 acid damage when poured on an object. Can be used as a simple ranged weapon with the thrown (20/60) property, dealing 4d4 acid damage on hit. You do not add your modifier to the damage roll.

Quality	Rarity	Acid Damage
Common	Common	4d4
Potent	Uncommon	6d4
Powerful	Rare	8d4

ALCHEMICAL FIRE^K

Concoction, common

A small flask of volatile orange liquid. It deals 2d10 fire damage when poured on an object. Can be used as a simple ranged weapon with the thrown (20/60) property, dealing 2d10 fire damage on hit. You do not add your modifier to the damage roll.

Quality	Rarity	Fire Damage
Common	Common	2d10
Potent	Uncommon	3d10
Powerful	Rare	4d10

ALCHEMICAL NAPALM^K

Concoction, common

A vicious sticky flammable substance. It deals 3d4 fire damage when poured on an object. Can be used as a simple ranged weapon with the thrown (20/60) property, dealing 3d4 fire damage on hit. You do not add your modifier to the damage roll.

On hit, the target creature or object continues to burn for one minute, taking 1d4 fire damage at the start of their turn (or at the start of your turn for an object without a turn) until a creature spends an action to put the flames out.

BOTTLED WIND^K

Concoction, common

As an action, you can open this casting *gust* without verbal or somatic components. Alternatively, you can breath from it, letting out only a little bit at a time, breathing directly from the bottle, but each time you must make a DC 5 athletics checks. On failure, you cast *gust* as above and all the air is lost. You can get 10 minutes of breathable air from one bottle.

LIQUID
LIGHTNING

LIQUID LIGHTNING^{DS}

Concoction, rare

Drinking this potion allows you to zip around for 1 minute as pure electricity. As a bonus action on each of your turns before the effect ends, you can transform into a bolt of lightning and instantly travel in a straight line to an unoccupied space you can see within 30 feet. This movement doesn't provoke opportunity attacks and you are immune to lightning damage while in this form.

You can pass through small holes, narrow openings, and even mere cracks, as well as through conductive materials such as metal. Each creature in your travel path must succeed on a DC 15 Dexterity saving throw, or take 3d6 lightning damage. You immediately revert to your normal form upon reaching the destination. This potion's stormy liquid arcs with tiny bolts of lightning and it numbs the tongue when sipped.

STICKY GOO^K

Concoction, common

When broken and exposed to air, it creates a very sticky rapidly expanding web like foam, with the effect of the spell *web* centered on where the flask breaks. You can reliably throw the flask to a target point within 30 feet, shattering it on impact.

OILS

BURNING OIL^K

Oil, common

As an action, you can coat a weapon in this oil and ignite it. For 1 minute, the ignited weapon burns, dealing an extra 1d4 fire to attacks made with it, and providing bright light in a 20-foot radius and dim light for an additional 20 feet.

FROST OIL^K

Oil, common

As an action, you can coat a weapon in this oil, causing it freeze over, covered in icy crystals. For 1 minute, the weapon deals an extra 1d6 cold damage on hit.

FLAMETONGUE OIL^K

Oil, uncommon

As an action, you can coat a weapon in this oil and ignite it. For 1 minute, the ignited weapon burns, dealing an extra 2d6 fire to attacks made with it, and providing bright light in a 20-foot radius and dim light for an additional 20 feet.

OIL OF SHARPNESS

Oil, very rare

This clear, gelatinous oil sparkles with tiny, ultrathin silver shards. The oil can coat one slashing or piercing weapon or up to 5 pieces of slashing or piercing ammunition. Applying the oil takes 1 minute. For 1 hour, the coated item is magical and has a +3 bonus to attack and damage rolls.

SILVER OIL^K

Oil, common

A sparkling chromatic oil. The oil can coat one slashing or piercing weapon or up to 5 pieces of slashing or piercing ammunition. Applying the oil takes 1 minute. For 1 hour, the coated item is considered silvered.

EXPLOSIVES

BLASTING POWDER

Explosive, common

A fine grey powder with large grains and the faint smell of sulfur and charcoal that comes in small packets weighing 1/2 pound.

When ignited by 1 or more fire or lightning damage, it explodes violently. All creatures within 10 feet of it must make a DC 14 Dexterity saving throw. On failure, they take 1d4 fire + 1d4 thunder damage, or half as much on a success. The amount of damage increases by 1d4 (both the fire and thunder) and the radius increases by 5 feet for each additional packet of Blasting Powder detonated in the same spot, up to a maximum of five packets. Deals double damage to buildings and structures. Creatures in range of more than one stack of up to 5 explosives at the same time take damage only from the highest damage effect.

Frequently used for mining and other responsible things... until adventurers get their hands on it.

DWARVEN ALCOHOL

Explosive, common

Only dwarves really know if the name of this liquid explosive is a joke or not, but must assume it is an acquired taste. An explosively flammable liquid that comes in a flask, this flask can be splashed across a 5 foot square within 5 feet. Once splashed, it can be ignited by 1 or more fire or lightning damage. When ignited it explodes in a plume of fire, dealing 2d4 fire damage to all creatures within 5 feet of the container, or within a square that has been soaked with it.

GRENADE CASING

Explosive, uncommon

A simple construction of a two chambered projectile (typically made of glass). When you add an Alchemist Fire and an Explosive to its separate compartments, it becomes an incredibly dangerous device. As an action, a character can light this bomb and throw it at a point up to 60 feet away. Creatures within the range of the explosive used must make a Dexterity saving throw against the DC of the explosive used, or take damage equal to the explosion + 1d4 piercing damage + 1d4 fire damage.

NAIL BOMB

Explosive, uncommon

A brutal instrument, this mixes explosive powder and nails to create a devastating fragmentation device. An exceedingly dangerous device. Heavier and more deadly than other explosives, the primary damage comes from the metal shrapnel (nails) flung in all directions. It can be detonated by dealing 1 fire or lightning damage to it. As an action, a packet of this explosive can be accurately thrown 20 feet, but will not detonate on impact (usually). When it detonates, all creatures within 20 feet of the target point must make a Dexterity saving throw with a DC equal to the crafter's Alchemy DC. On failure, they take 8d4 piercing damage, or half as much on a success.

You can fuse your explosives. When fused, intentionally dealing fire damage to the explosives (or otherwise lighting the fuse) causes it to detonate on a delay, selected from: short (the end of your turn), medium (the start of your next turn), and long (2 rounds, at the start of your turn).

SMOKE POWDER

Explosive, common

A fine grey powder with large grains and the faint smell of sulfur and charcoal that comes in small packets weighing 1/2 pound.

When ignited by 1 or more fire or lightning damage, it releases a blast of thick black smoke that fills a 20-foot radius. Everything in this smoke is heavily obscured for 2d4 rounds. At the start of your next turn after the number of rounds rolled, the smoke begins to fade leaving everything within the radius lightly obscured, and it clears completely at the start of your next turn after that.

Additional uses of the smoke powder extend the duration of heavy obscurement for an extra 1d4 rounds.

SIMPLE/POTENT/POWERFUL EXPLOSIVE

Explosive, common/uncommon/rare

A bundled explosive alchemical preparation. It can be detonated by dealing 1 fire or lightning damage to it. As an action, a packet of this explosive can be accurately thrown 20 feet, but will not detonate on impact (usually). When it detonates, all creatures within 10 feet (for common) of the target point must make a Dexterity saving throw with a DC equal to the crafter's Alchemy DC. On failure, they take 1d8 fire + 1d8 thunder damage, or half as much on a success. Creatures in range of more than one explosive take damage only from the highest damage effect.

Name	Radius	Damage
Common	10 feet	1d8 fire + 1d8 thunder.
Potent	15 feet	2d8 fire + 2d8 thunder.
Powerful	20 feet	4d8 fire + 4d8 thunder.

You can fuse your explosives. When fused, intentionally dealing fire damage to the explosives (or otherwise lighting the fuse) causes it to detonate on a delay, selected from: short (the end of your turn), medium (the start of your next turn), and long (2 rounds, at the start of your turn).

MISCELLANEOUS

MAGICAL INK

Component, common/uncommon/rare/very rare/legendary

Magical ink that is used by Enchanters to create scrolls, made by rendering down magical alchemical ingredients.

ALCHEMY MODIFIERS

The following are alchemical modifiers that can be applied to a potion. All alchemical modifiers require approval from the GM if the modifier will work with a given potion or creation.

Modifier	Difficulty Modifier	Effect
Aerosol	+8	Require two additional reactive reagents of equal rarity to the rarest reagent of the potion. Rather than drinking it, when uncorked or broken (as an action) it effects all creatures in a 5-foot radius as if they'd consumed it.
Celestial	+3	Requires an common divine essence. Adds the effect of lesser restoration to the potion.
Divine	+6	Requires an rare divine essence. Adds the effect of greater restoration to the potion.
Endothermic	+4	Any fire damage the potion does becomes cold damage
Expansive	+5	Requires an additional common reactive reagent. Expands the area of effect of any area of effect the potion has by 5 feet.
Insidious	+3	The effect of the potions becomes shrouded from magic such as identify. You can make the potion appear as another potion of the same rarity. Another alchemist can indentify it by making an Alchemy Check against your Alchemy DC

ADDITIONAL MATERIALS

You can simply load more reagents into any potion, increasing its potency in different ways, though it increases the difficulty. You can make a "custom potion" simply by using these modifiers with no base potion. When you do so, the base DC is 8.

Additional Reagent	Difficult Modifier	Effect
Common Curative	+2	The potion restores +1d4 hit points when consumed.
Common Reactive	+2	The potion deals +1d4 fire damage when shattered (or consumed).
Common Poisonous	+2	The potion deals +1d4 poison damage when consumed.
Uncommon Curative	+3	The potion restores +2d4 hit points when consumed.
Uncommon Reactive	+3	The potion deals +2d4 fire damage when shattered (or consumed).
Uncommon Poisonous	+3	The potion deals +2d4 poison damage when consumed.
Rare Curative	+4	The potion restores +3d4 hit points when consumed.
Rare Reactive	+4	The potion deals +3d4 fire damage when shattered (or consumed).
Rare Poisonous	+4	The potion deals +3d4 poison damage when consumed.
Very Rare Curative	+5	The potion restores +4d4 hit points when consumed.
Very Rare Reactive	+5	The potion deals +4d4 fire damage when shattered (or consumed).
Very Rare Poisonous	+5	The potion deals +4d4 poison damage when consumed.
Legendary Curative	+6	The potion restores +5d4 hit points when consumed.
Legendary Reactive	+6	The potion deals +5d4 fire damage when shattered (or consumed).
Legendary Poisonous	+6	The potion deals +5d4 poison damage when consumed.

POISONCRAFT

A subdomain of alchemy, the profession of poisoncraft is often seen as the “dark side” of Alchemy. While Alchemy often deals in poisonous reagents, typically speaking they aim to tame the poison, channeling it into useful effects. While capable of making crudely poisonous potions, such things are generally considered failures to an alchemist. To a poisoner, they are considered the art itself.

Poisoncraft shares Shelf Life and Reagents with Alchemy; for details regarding those, see Alchemy.

QUICK REFERENCE

While each step will go into more depth, the quick reference allows you to at a glance follow the steps to make a potion in its most basic form:

- Select a poison that you would like to craft from the “Poison Crafting Table”.
- Acquire the items listed in the materials column for that potion.
- Use your Poisoner’s Kit tool to craft the option using the number of hours listed in the Crafting Time column, or during a long rest using the crafting camp action if the crafting time is 2 hours or less. Poisoncraft items must be crafted in a single session.
- For every 2 hours, make a crafting roll of 1d20 + your Intelligence or Wisdom modifier (your choice) + your proficiency bonus with a Poisoner’s Kit. You can abort the craft after a bad crafting roll if you wish, this counts as a failure.
- On success, you mark 2 hours of completed time. Once the completed time is equal to the crafting time, the magic item is complete. On failure, the crafting time is lost and no progress has been made during the 2 hours. If you fail 3 times in a row, the crafting is a failure and all materials are lost.

RELATED TOOL & ABILITY SCORE

Poisoncraft works using Poisoner’s Kit. Attempting to craft a potion without these will almost always be made with disadvantage, and proficiency with these allows you to add your proficiency to any poisoncraft crafting roll.

Poisoncraft uses your choice of your Intelligence or Wisdom modifier, representing your path of knowledge to the art of making deadly things deadlier.

APPLYING THE POISON

Applying an Injury poison to a weapon or a Contact poison to an object, requires a poisoner’s kit and proficiency with it. To attempt to apply the poison without a kit, make a DC 15 Dexterity check, adding your proficiency bonus if you are proficient with the poisoner’s kit. On a failure, the poison is not applied and you suffer the effects of the poison.

CRAFTING ROLL

Putting that together means that when you would like to create poison, your crafting roll is as follows:

Poisoncraft Modifier = your Poisoner’s Kit proficiency bonus + your Intelligence or Wisdom modifier (your choice).

POISONCRAFT SAVING THROW

When a poison requires a saving throw, the following is the formula for calculating the saving throw. The saving throw is calculated at the time of creation based on the creators attributes and proficiency, and doesn’t change once it is created.

Poison DC = 8 + your Poisoner’s Kit proficiency bonus + your Intelligence or Wisdom Modifier (your choice).

SUCCESS AND FAILURE

For Poisoncraft, after you make the crafting roll and succeed, mark your progress on a crafting project. If you succeed, you make 2 hours of progress toward the total crafting time (and have completed one of the required checks for making an item). Checks for Poisoncraft do not need to be immediately consecutive. Failure means that no progress is made during that time. Once an item is started, even if no progress is made, the components reserved for that item can only be recovered via salvage.

If you fail three times in a row, all progress and materials are lost and can no longer be salvaged.

POISONS

Given their insidious and deadly nature, poisons are illegal in most societies but are a favorite tool among assassins, drow, and other evil creatures.

Poisons come in the following four types.

Contact. Contact poison can be smeared on an object and remains potent until it is touched or washed off. A creature that touches contact poison with exposed skin suffers its effects.

Ingested. A creature must swallow an entire dose of ingested poison to suffer its effects. The dose can be delivered in food or a liquid. You might decide that a partial dose has a reduced effect, such as allowing advantage on the saving throw or dealing only half damage on a failed save.

Inhaled. These poisons are powders or gases that take effect when inhaled. Blowing the powder or releasing the gas subjects creatures in a 5-foot cube to its effect. The resulting cloud dissipates immediately afterward. Holding one’s breath is ineffective against inhaled poisons, as they affect nasal membranes, tear ducts, and other parts of the body.

Injury. Injury poison can be applied to weapons, ammunition, trap components, and other objects that deal piercing or slashing damage. An injury poison typically lasts 1 minute on a weapon, and lasts for up to 5 hits. A creature that takes piercing or slashing damage from an object coated with the poison is exposed to its effects.

BURNING WOUND (INJURY)^K*Poison, uncommon*

Applied to a melee weapon or up to 5 pieces of ammunition. A creature subjected to this poison must make a Constitution saving throw with a DC equal to the crafter's Poison DC.

On failure, the target becomes poisoned for 1 minute. While poisoned this way, a creature takes 1d6 fire damage at the end of each of its turns, and any hit points regained is reduced by half. At the end of each of their turns, they can repeat the saving throw, ending the effect on success.

Once applied, the poison retains potency for 1 minute before drying, and wears off of a weapon after that weapon has delivered the effect 5 times.

CRAWLER MUCUS (CONTACT)

Poison, uncommon

Applied to an object. The first creature that touches must make a Constitution saving throw with a DC equal to the crafter's Poison DC or be Poisoned for 1 minute. The Poisoned creature is Paralyzed. The creature can repeat the saving throw at the end of each of its turns, Ending the Effect on itself on a success., after which the poison is rubbed off.

DIZZYING TOUCH (CONTACT)

Poison, common

Applied to an object. The first creature that touches must make a Constitution saving throw with a DC equal to the crafter's Poison DC. On failure, the creature becomes poisoned for 1 minute. While poisoned in this way, they must succeed a Wisdom saving throw at the end of each of their turns or fall prone.

ENDLESS DREAMS (INGESTED)^K*Poison, legendary*

Applied to food or beverage. A creature that consumes this poison must make a Constitution saving throw with a DC equal to the crafter's Poison DC. On failure, the next time the creature falls asleep they enter endless slumber in stasis. They do not wake and can't be roused by any normal means. A creature sleeping in this way doesn't require food or drink, and doesn't age.

This effect can only be ended by greater restoration cast at 7th level or higher, or wish.

ESSENCE OF ETHER (INHALED)

Poison, rare

When released, this poison fills a 5-foot radius around the source. You can accurately throw a vial of it (shattering on impact) at a point up to 30 feet away, or release it by other means. A creature subjected to this poison must make a Constitution saving throw with a DC equal to the crafter's Poison DC.

On failure, the creature becomes Poisoned for 8 hours. The Poisoned creature is Unconscious. The creature wakes up if it takes damage or if another creature takes an action to shake it awake.

If stored as powder, you can throw this powder 5 feet. If stored in a vial, you can throw 30 feet.

FAINTING FUMES (INHALED)^K*Poison, rare*

When released, this poison fills a 10-foot radius around the source. You can accurately throw a vial of it (shattering on impact) at a point up to 30 feet away, or release it by other means. A creature subjected to this poison must make a Constitution saving throw with a DC equal to the crafter's Poison DC. On failure, the target becomes poisoned for 1 hour. If the saving throw fails by 5 or more, the creature is also unconscious while poisoned in this way. The creature wakes up if it takes damage or if another creature takes an action to shake it awake.

GRIEVOUS INJURY POISON (INJURY)^K*Poison, very rare*

Applied to a melee weapon or up to 5 pieces of ammunition.

A creature subjected to this poison must make a Constitution saving throw with a DC equal to the crafter's Poison DC, taking 6d6 poison damage on a failed save, or half as much damage on a successful save.

Once applied, the poison retains potency for 1 minute before drying, and wears off of a weapon after that weapon has delivered the effect 5 times.

KNOCKOUT POISON (INJURY)*Poison, rare*

Applied to a melee weapon or up to 5 pieces of ammunition. A creature subjected to this poison must make a Constitution saving throw with a DC equal to the crafter's Poison DC.

On failure, the target becomes poisoned for 1 hour. If the saving throw fails by 5 or more, the creature is also unconscious while poisoned in this way. The creature wakes up if it takes damage or if another creature takes an action to shake it awake.

Once applied, the poison retains potency for 1 minute before drying, and wears off of a weapon after that weapon has delivered the effect 5 times.

PARALYZING POISON (INJURY)^K*Poison, rare*

Applied to a melee weapon or up to 5 pieces of ammunition. A creature subjected to this poison must make a Constitution saving throw with a DC equal to the crafter's Poison DC.

On failure, the target becomes poisoned for 1 minute. A creature is paralyzed while poisoned this way. At the end of each of the creature's turns, it can repeat the saving throw, ending the effect on success.

Once applied, the poison retains potency for 1 minute before drying, and wears off of a weapon after that weapon has delivered the effect 5 times.

MALICE (INHALED)*Poison, rare*

When released (by throwing powder or breaking a vial of it), this poison affects a 5-foot radius from where it was released. A creature subjected to this poison must make a Constitution saving throw with a DC equal to the crafter's Poison DC.

On failure, the creature becomes Poisoned for 1 hour. The Poisoned creature is Blinded.

If stored as powder, you can throw this powder 5 feet. If stored in a vial, you can throw 20 feet.

MIGHTNIGHT TEARS (INGESTED)*Poison, uncommon*

A creature that ingests this poison suffers no Effect until the stroke of midnight. If the poison has not been neutralized before then, the creature must succeed on a Constitution saving throw with a DC equal to the crafter's Poison DC, taking 31 (9d6) poison damage on a failed save, or half as much damage on a successful one.

OLD RELIABLE (INJURY)^K*Poison, uncommon*

Applied to a melee weapon or up to 5 pieces of ammunition. This poison is exceptionally durable, lasting on a weapon for 1 hour and an unlimited number of hits during that time. On hit, weapons with this poison applied deal 1d4 additional poison damage.

POTENT INJURY POISON (INJURY)^K*Poison, uncommon*

Applied to a melee weapon or up to 5 pieces of ammunition. A creature subjected to this poison must make a Constitution saving throw with a DC equal to the crafter's Poison DC.

On failure, they take 2d6 Poison damage and become Poisoned for 1 hour. At the end of a poisoned creature's turn, it can repeat the saving throw, ending the condition on success.

Once applied, the poison retains potency for 1 minute before drying, and wears off of a weapon after that weapon has delivered the effect 5 times.

POTENT INHALED POISON (INHALED)^K*Poison, uncommon*

When released, this poison fills a 10-foot radius around the source. You can accurately throw a vial of it (shattering on impact) at a point up to 30 feet away, or release it by other means. A creature subjected to this poison must make a Constitution saving throw with a DC equal to the crafter's Poison DC.

On failure, they take 4d4 Poison damage and become Poisoned for 1 hour. At the end of a poisoned creature's turn, it can repeat the saving throw, ending the condition on success.

This effect lingers in the area it was released for 1d4 rounds. A strong wind will clear away and disperse the poison. A creature that enters the area for the first time must save against the poison.

POTENT CONTACT POISON (CONTACT)^K*Poison, uncommon*

Applied to an object. The first creature that touches that object after it is applied must make a Constitution saving throw with a DC equal to the crafter's Poison DC.

On failure, they take 4d4 Poison damage and become Poisoned for 1 hour. At the end of a poisoned creature's turn, it can repeat the saving throw, ending the condition on success.

POTENT INGESTED POISON (INGESTED)^K*Poison, uncommon*

A creature subjected to this poison must make a Constitution saving throw with a DC equal to the crafter's Poison DC. On failure, they take 3d6 Poison damage and suffer the poisoned condition for 1 hour.

SIMPLE INGESTED POISON (INGESTED)^K*Poison, common*

Applied to food or beverage. A creature that consumes this poison must make a Constitution saving throw with a DC equal to the crafter's Poison DC. On failure, they take 2d6 Poison damage and suffer the poisoned condition for 1 hour.

SIMPLE INJURY POISON (INJURY)^K*Poison, common*

Applied to a melee weapon or up to 5 pieces of ammunition. A creature subjected to this poison must succeed a Constitution saving throw with a DC equal to the crafter's Poison DC or take 2d4 Poison damage.

Once applied, the poison retains potency for 1 minute before drying, and wears off of a weapon after that weapon has delivered the effect 5 times.

SIMPLE INHALED POISON (INHALED)^K*Poison, common*

When released, this poison fills a 10-foot radius around the source. You can accurately throw a vial of it (shattering on impact) at a point up to 30 feet away, or release it by other means. A creature subjected to this poison must make a Constitution saving throw with a DC equal to the crafter's Poison DC. On failure, they take 2d4 Poison damage.

SIMPLE CONTACT POISON (CONTACT)^K*Poison, common*

Applied to an object. The first creature that touches must make a Constitution saving throw with a DC equal to the crafter's Poison DC or take 2d4 Poison damage, after which the poison is rubbed off.

SLOW DEATH (INGESTED)^K*Poison, very rare*

Applied to food or beverage. A creature that consumes this poison begins to slowly die if they aren't immune to poison. Each time that creature finishes a long rest, its hit point maximum is reduced by 1. If the creature's hit point maximum hit is reduced to 0 by this effect, it dies. While its hit points are less than half of its original maximum, it is poisoned. This effect can be removed by effects that remove the poisoned condition, and can be only be identified by magic or a DC 15 Wisdom (Medicine) check.

If a creature is cured, it regains its lost hit points after it finishes a long rest.

VEINS OF TAR (INGESTED)^K*Poison, rare*

Applied to food or beverage. A creature that consumes this poison must make a Constitution saving throw with a DC equal to the crafter's Poison DC. On failure, they are under the effect of the slow spell for 8 hours. This effect can be removed by effects that remove poison.

WHISPERS OF MADNESS (CONTACT)*Poison, rare*

Applied to an object. The first creature that touches must make a Constitution saving throw with a DC equal to the crafter's Poison DC. On failure, the character becomes

poisoned for 10 minutes, and rolls on the short term madness table. They are under the effect of the rolled madness while poisoned.

WITHERING SOUL (INJURY)^K*Poison, uncommon*

Applied to a melee weapon or up to 5 pieces of ammunition. A creature subjected to this poison must make a Constitution saving throw with a DC equal to the crafter's Poison DC.

On failure, they become Poisoned for 1 minute. While poisoned in this way, a creature takes 1d4 necrotic damage at the start of their turn, and are under the effect of bane. At the end of a poisoned creature's turn, it can repeat the saving throw, ending the condition on success.

Once applied, the poison retains potency for 1 minute before drying, and wears off of a weapon after that weapon has delivered the effect 5 times.

BLACKSMITHING

Blacksmithing is a popular professional interest of two sorts of adventurers: those that want to hit things with heavy metal objects, and those that want a heavy metal object between them and the thing hitting them.

While often relying on the town blacksmith to do their work for them is a fine option, rolling up your sleeves and doing the work yourself can allow you to express your creativity... and may save you a few coins in the process.

Blacksmithing is slow hard work, but has a higher tolerance for failure than most, and is more dependent on knowing your material, as the templates you work from tend to be common across many of them.

RELATED TOOL

Blacksmithing works using blacksmith's tools. Attempting to craft an item without blacksmith's tools will often be impossible, though a GM may let you use makeshift tools to make a check with disadvantage. Proficiency in blacksmith's tools allows you to add your proficiency bonus to any blacksmithing check.

While Blacksmiths can benefit from their skills in small ways such as sharpening their weapons and retrofitting their gear on the go, many of their crafting options require a fully equipped Forge; a fully equipped Forge entails forge, anvil, and blacksmith's tools.

QUICK REFERENCE

While each step will go into more depth, the quick reference allows you to at a glance follow the steps to make a blacksmith item in its most basic form:

- Select the item that you would like to craft from any of the Blacksmithing Crafting Tables.
- Acquire the items listed in the materials column for that item.
- Use your blacksmith's tools to craft the option using the number of hours listed in the Crafting Time column.
- For every 2 hours, make a crafting roll of 1d20 + your Strength modifier + your proficiency bonus with blacksmith's tools.
- On success, you mark 2 hours of completed time. Once the completed time is equal to the crafting time, the item is complete.
- On failure, the crafting time is lost and no progress has been made during the 2 hours. If you fail 3 times in a row, the crafting is a failure and all materials are lost.

MAGICAL FORGES

The worlds of the planar multiverse are a fantastical place with many wonders. Sometimes you may find locations that have been constructed in such a way as to leverage powerful primal powers in the forging technique: for example, a forge at the heart of a volcano or atop an ever-frozen glacier, which might imbue items crafted there with special properties.

CRAFTING ROLL

Putting that together means that when you would like to smith an item, your crafting roll is as follows:

Blacksmithing Modifier = your Blacksmith's Tools proficiency bonus + your Strength modifier

SUCCESS AND FAILURE

After you make a crafting roll, if you succeed, you make 2 hours of progress toward the total crafting time (and have completed one of the required checks for making an item).

Checks for Blacksmithing do not need to be immediately consecutive. If you fail three times in a row, all progress and materials are lost and can no longer be salvaged. Failure means that no progress is made during that time.

Once an item is started, even if no progress is made, the components reserved for that item can only be recovered via salvage.

“ICE/DARK/FIRE” STEEL INGOTS

The names for Icesteel, Darksteel, and Firesteel are intentionally generic to better map to unique metals that might be present in your setting, and may have other names. Adamantine and Mithril tend to be widespread (and consequently open source metals), but other more unique metals may vary based on setting.

MAINTENANCE & MODIFICATIONS

While the primary purpose of Blacksmithing is to forge armor and weapons from metal, for an adventurer such events are important milestones that generally will not occur everyday. The following are some tasks that require proficiency with Blacksmith's Tools that provide a more day-to-day utility to the proficiency, giving them minor ways to enhance or adapt their gear.

These are minor crafts can be completed in 2 hours (or as one camp action when using the Kibbles' Camp Actions rules) with the expenditure of 5 gp worth of materials. They can be done as part of a long rest, but have limitations the normally crafted items do not (such as a maximum stockpile of minor crafts).

The following are “minor crafting options” for Blacksmiths:

MAINTAIN GEAR

One of the perks of having a blacksmith in the field is their ability to keep gear in its best condition, giving you an edge (sometimes literally) in the quality of your gear and weapons. Over the course of 2 hours, a Blacksmith can maintain a number of weapons or sets of armor equal to their proficiency bonus, granting each weapon or armor maintained a special d6 Quality Die.

For a weapon, this can be rolled and added to an attack or damage roll, representing a case where the perfect state of the gear turned a miss into a hit or dealt a bit of extra damage. For a set of armor, the die can be rolled when hit by an attack, and the damage taken from that attack can be reduced by that amount.

Rolling this die doesn't require an action, but once rolled it is spent and can't be regained until the blacksmith maintains that armor or weapon again.

MODIFY ARMOR

While the field crafting of armor is often not possible, you can make smaller adjustments on the go. Over the course of 2 hours, you can turn a set of plate mail into a half plate or a breastplate, refit a set of heavy or medium armor to fit another user that is equal in size or smaller than the original user.

MODIFY WEAPON

Every adventure has slightly different preferences in their gear, and your skills allow you make slight modifications to nonmagical weapons made of metal. These modifications take 2 hours, require a heat source, and require you to pass a DC 14 blacksmithing tool's check (on failure, the weapon is damaged and has a -1 penalty to its attack rolls until fixed). You can perform one of the following modifications:

- You can weight a weapon, giving it the heavy property. If it did not already have the two-handed property, it gains the two-handed property.
- You can remove the heavy property from a weapon, reducing its damage dice by d2.
- You can add the light property to a weapon without the heavy property, reducing its damage dice by d2.
- You can silver the weapon (requires 5 silver scraps, doubled for two handed weapons).

NOTE: IMPERFECT RESULTS

Using this method will make some... bad weapons. That is largely intentional. If you want to make a more functional weapon, you can make it from scratch using the Weapon Template. This represents quick hacks to an existing weapon.

REPAIR GEAR

Sometime in the course of adventuring, weapons or armor will become severely damaged, suffering a penalty to its attack rolls or AC. Over the course of 2 hours, you can repair this damage, though at the discretion of the GM you may need other materials to perform this task if it is heavily damaged. Weapons that are entirely broken (such as a snapped sword) are generally beyond simple repair.

BLACKSMITH CRAFTING TIMES & REALISM

The crafting times presented here are balanced around the time and cost that makes sense for game balance. If your looking for more realistic times, you can increase the crafting times either by doubling them (plausible), or making each check take 1 day (realistic). This will more closely resemble real crafting items and works better in gritty realism games, but is often impractical for a more typical adventurer.

^s Smelting ore requires specialized facilities. This can usually be accomplished in a fully equipped smithy, but consult your GM for where it might be appropriate. Adventurers rarely smelt their own ore, these are included primarily for informational purposes. Smelting magical ores may require more specialized facilities or locations.

CUSTOM WEAPON GUIDE

At first glance, it seems that the weapon selection in 5e is quite limited, but with a little knowledge of the system, you can largely expose that template that builds those weapons, and from there, well, the opportunities are limitless! When you would like to craft a template weapon, just follow the steps below:

WEAPON CREATION TEMPLATE

To create a weapon go through five steps to determine the final damage and properties of the weapon. Adding a d2 means increasing the die by one size (e.g. a d6 + d2 = d8) and the converse for subtracting a d2.

STEP 1: SELECT ONE OF...

Property	Base Damage Die	Crafting Modifier	Material Modifier	Notes
Simple	d6	12 Base DC	1 ingot	—
Martial	d8	15 Base DC	3 ingots	Becomes a martial weapon

STEP 2: SELECT ONE OF...

Property	Weapon Modifier	Crafting Modifier	Material Modifier	Notes
Light	-d2	+1 Base DC	-1 ingot	—
None	—	—	—	—
Versatile	—	+1 Base DC	+1 ingot	+d2 when wielded with two hands
Two-Handed	+d2	—	2x ingots	—

STEP 3: SELECT ALL THAT APPLY...

Property	Weapon Modifier	Crafting Modifier	Material Modifier	Notes
Reach	-d2	+2 Base DC	-1 ingot + 1 long haft	—
Finesse	-d2	+3 Base DC	-1 ingot	No damage die cost if the weapon is light or has no other properties
Thrown	—	+2 Base DC	—	—
Heavy	+d2	+1 Base DC	+4 ingots	Requires two-handed

STEP 4: SET DAMAGE DIE/DICE...

You can divide your damage die into smaller dice that equal the same total. For example, a d12 can become 2d6 or be reduced again to 3d4. Each time you do this, the crafting Base DC increases by +1. You can't divide dice to be lower than d4.

STEP 5: SELECT DAMAGE TYPE

Type	Effect
Slashing	Deals Slashing Damage
Piercing	Deals Piercing Damage
Bludgeoning	Deals Bludgeoning Damage

BONUS STEP: MODIFIERS AND MATERIALS

You can additionally add Material Modifiers and Crafting Modifiers to template weapons. These modifiers may add additional properties as listed by the modifier, and their difficult modifier is incorporated into the weapon.

NOTES:

- Thrown can be ranged weapons instead of melee weapons. (Example: Dart)
- The GM can waive the restriction on heavy property requiring two-handed property but should be aware it opens the door to combining feats for great weapons with the use of shields.
- Add one short haft for axes, maces or similar.
- Weapons made of metal require a minimum of half an ingot (like a dagger), even if the table would reduce them zero.

Bronze	−3	Weapons forged from Bronze are inferior, having −1 to attack and damage rolls. Gains the Fragile property.	Armor forged from bronze is inferior, having a −1 penalty to its AC. Gains the Fragile property.
Cold Iron (Meteoric Iron)	−2	Gains the Fragile property.	Gains the Fragile property.
Adamantine	+7	Gains the “Special: Critical Strikes with this weapon permanently damage nonmagical weapons, shields or armor of the defending creature that are not forged from Adamantine (reducing the attack roll of a weapon or the AC of armor by 2)”.	While you’re wearing it, any critical hit against you becomes a normal hit.
Mithril	+5	A weapon with the heavy property forged from it loses the heavy property. If the weapon didn’t have the heavy property, it gains the light property. The DC of an Enchanter applying an Enchantment to it is reduced by 4, and it always counts as having 1 common essence of any type as part of the craft.	If the armor normally imposes disadvantage on Dexterity (Stealth) checks or has a Strength requirement, the mithril version of the armor doesn’t. Easier for Enchanters to Enchant.
Dark Steel	+6	You have advantage on attack rolls while in darkness wielding Darksteel weapons.	Perception checks relying on sight have disadvantage against you when you are in dim light or darkness while wearing this armor.
Ice Steel	+6	A weapon forged from icesteel deals an extra 1d4 cold damage on hit.	Wearing armor forged from icesteel grants resistance to Fire damage.
Fire Steel	+6	A weapon forged from firesteel deals an extra 1d4 fire damage on hit.	Wearing armor forged from firesteel grants resistance to Cold damage.

CRAFTING MODIFIERS

Modifier	Difficulty Modifier	Weapon Effect	Armor Effect
Aerodynamic	+4	The weapon gains the Thrown (10/30) property if it doesn't have the Thrown property. If it has the Thrown property, the range increases by 10/30 feet instead.	Your falling speed increases to 520 feet per round while wearing this armor.
Double Bladed	+10	The weapon's damage die is reduced by d2. Adds the "Special: You can use a bonus action immediately after to make a single melee attack with it. This attack deals 1d4 slashing damage on a hit"	—
Weighted (Dwarven)	+4	A weapon with the light property forged from it loses the light property. If the weapon didn't have the light property, it gains the heavy property.	If an Effect moves you against your will along the ground while wearing this armor, you can use your Reaction to reduce the distance you are moved by up to 10 feet. The weight of the armor is increased by 50%
Elven	+5	The weapon gains the Finesse property.	You are considered proficient with this armor even if you lack proficiency
Fragile	N/A	A Fragile weapon breaks on an attack roll of 1 against an armored target (a target wearing armor or with the natural armor property) if that armor doesn't have the Fragile property.	A Fragile set of armor is destroyed when you take a critical strike from a creature wielding a weapon without the Fragile property.
Hardened	+4	The weapon's Quality Die when maintained becomes a d12	The armor's Quality Die when maintained becomes a d12.
Lance	+2	Requires two-handed weapon with reach. The weapon becomes one handed and its base damage die increases by d2, but you have disadvantage when you use a lance to attack a target within 5 feet of you. Also, a lance requires two hands to wield when you aren't mounted.	—
Masterwork	+6 ^{MW}	A Masterwork weapon gains +1 to attack rolls. Removes the fragile property if present.	A set of Masterwork armor gains a Damage Reduction ^{DR} value of 2. Removes the fragile property if present.
Segmented	+4	—	The armor can be donned or doffed in half as much time
Slotted	+2	This weapon can hold 1 magical gem crafted by an Enchanter	This armor can hold 1 magical gem crafted by Enchanter.
Spiked	+4	If a weapon deals bludgeoning damage, it now deals piercing damage.	Attackers that strike you with unarmed strikes or natural weapons take 1d4 piercing damage. A creature that ends its turn while grappling you takes 1d4 piercing damage.

- ^{MW} Masterwork: Failing a crafting roll for Masterwork doesn't cause a failure, but the resulting weapon is only a Masterwork if all crafting rolls succeed pass the DC of Masterwork. An item is automatically masterwork if every roll qualified for a Masterwork version.
- ^{DR} Damage Reduction: While you are wearing armor, bludgeoning, piercing, and slashing damage that you take from nonmagical weapons is reduced by the value of your Damage Reduction to a minimum of 1.

SUPPLEMENTAL MODIFIERS

Modifier	Materials Needed	Difficulty Modifier	Weapon Effect	Armor Effect
Magical	2 common arcane essences 2 uncommon arcane essence*	+8 ^{Magic}	Weapon adds +1 to attack and damage rolls.	Armor AC is increased by +1.
Silvered	+5 silver scraps*	+2	This weapon is considered silvered for the purposes of overcoming damage resistance.	This armor is shiny

- Supplemental Materials are doubled for weapons with the two-handed property or armor.
- ^{Magic} Magic: Difficulty modifier is reduced to +3 if combined with Mithril or Adamantine material modifiers.

ADDITIONAL ITEMS

TOWER SHIELD

Common

This is a massive unwieldy shield. While carrying it, your speed is reduced by 10 feet. At the end of each of your turns, pick a direction. You have half cover from attacks in a cone that direction. Alternatively, you can pick a single target, tracking the movement. You have half cover against attacks from that target (and only that target).

SPIKED SHIELD

Common

Your shield is considered a martial melee weapon, dealing 1d4 damage on hit.

BRACERS

Common

While wearing bracers and not using a shield, as a reaction to being hit by an attack, you can attempt to parry the attack with your bracer, adding +2 AC bonus against the triggering attack.

ADAMANTINE BRACERS

Uncommon

While wearing bracers and not using a shield, as a reaction to being hit by an attack, you can attempt to parry the attack with your bracer, adding +2 AC bonus against the triggering attack. If this causes your AC to be exactly equal to the attack roll and the attacking weapon is made of a common metal, the attacking weapon is destroyed.

THUNDER CANNON

Requires attunement

The principle weapon of a Thundersmith. Deals 1d12 piercing damage, and has the Ammunition (60/180), Two-Handed, Loud, and Stormcharged properties.

- **Stormcharged.** When you use an action, bonus action, or reaction to attack with a Stormcharged Weapon, you can make only one Attack regardless of the number of attacks you can normally make. If you could otherwise make additional attacks with that action, the weapon deals an extra 3d6 lightning or thunder damage per attack that was foregone.
- **Loud.** Your weapon rings with thunder that is audible within 300 feet of you whenever it makes an attack.

BEYOND THE SYSTEM

While blacksmithing allows for a huge amount of custom creation, there will always be new things beyond the system.

The following is some guidelines for how to make something beyond the system.

- Trivial items should be composed of metal scraps, and have a DC in the range of 8–12. These represent things blacksmiths can easily make. Common items should require ingots, and have a DC of 12–18 depending if they are simple or exotic. Uncommon and rarer items should have uncommon and rarer materials matching their rarity.
- Blacksmithing alone can make magical weapons only to the extent that magical components are used.
- If you would like Blacksmithing alone to make fully magical swords, you can largely just take the materials from an equivalent enchanting recipe and add them to materials of the weapon, and then take the higher of the difficulty and crafting time of the projects.

WORK TOGETHER AND BE REASONABLE

The system is, by its nature, extremely extensible. Great pains have been taken to make things as “balanced” as possible. But this doesn’t mean the rules transcend common sense. As a player, tell your GM what you want to make and be open to adjustments to how it would work. As a GM, tell players how their projects will work from the start, and be open to the idea they can make cool things... these crafted items are part of their “loot” and don’t need to be “power neutral” as long as they aren’t breaking anything.

ENCHANTING

Enchanting is a hard and expensive profession, but one eagerly pursued by many all the same. The makers of miracles, the craftsmen of wonder, no other profession holds the fascination of adventurers quite like Enchanter, for their domain encompasses the large majority of magical items.

An item need not pass through an enchanter's hands to be magical, indeed many a blacksmith has forged a magical blade with the right materials, but the true wonder of enchantment is to turn the mundane magical. An enchanter can turn even the most base and commonplace item into something wonderful and powerful, and when given the head start of working with an already well crafted item can craft things of legend.

Many enchanters further specialize in subdomains such as Scroll Scribing or Wand Whittling for more specialized good that require more specialized tools, with many even pursuing such things as Jewelry Crafting in order to create the precious items that most easily enchant, but the general field of Enchanting still covers a large swath of the wondrous.

Scrolls are heavily featured as a component of nearly all magical items, forming the basis for the powerful enchantments that imbue them with their magic. These are templates of a sort, and thus the ability to craft scrolls with Scroll Scribing is often the most desired of the subdomains for an Enchanter.

QUICK REFERENCE

While each step will go into more depth, the quick reference allows you to at a glance follow the steps to make a magic item in its most basic form:

- Select the magic item that you would like to craft from any of the Magic Item Tables.
- Acquire the items listed in the materials column for that item.
- Use your Arcana skill to infuse the option using the number of hours listed in the Crafting Time column, or during a long rest using the crafting camp action if the crafting time is 2 hours or less.
- For every 2 hours, make a crafting roll of 1d20 + your Intelligence modifier + your Arcana proficiency.
- On success, you mark 2 hours of completed time. Once the completed time is equal to the crafting time, the magic item is complete. On failure, the crafting time is lost and no progress has been made during the 2 hours. If you fail 3 times in a row, the crafting is a failure and all materials are lost.

RELATED SKILL & ABILITY SCORE

Rather than any one tool, Enchanting primarily uses the Arcana skill. Due to the subdomains of scrolls (Scroll Scribing) and runes (Runecraft) being part of enchanting, proficiency in Calligraphy Tools is often useful.

Enchanting uses your Intelligence modifier. While magic comes in many forms (Arcane, Primal, Divine) and many casters are able to control it with other aspects of their talent, the ability to systematically bind it into magic items requires a deep understanding of its inner workings that can only be accomplished through meticulous study and knowledge.

PSIONIC ITEMS

The items listed on the Psionic Items table is the exception to this rule. These are items infused with psionic power, and instead use the “Psionics” skill, a skill that any psionic character can be considered proficient if not using special psionics rules.

These items are something of a subtype of enchanting, and may not exist in your setting if psionics aren’t included. Consult your GM.

MATERIALS: ESSENCES & COMPONENTS

The materials of enchanting are Essences and Components. Essences come in three different types: Arcane, Primal, and Divine—as well as five rarities: common, uncommon, rare, very rare, and legendary. What an Essence is can vary greatly, as they are things of innate magic that is used to power the Enchanter’s creations.

They could be organs of magical monsters (such as the heart of a dragon which would be a rare primal essence) or they can be synthesized from magical reagents into a magical compound. Components are a broad category of items ranging from the base item you are enchanting to any extraneous bits needed to be added. One unique component that is present in many enchantments is a Spell Scroll of various types of spells that form the basis of the sort of the magic the item has.

REPLACING SPELL SCROLLS

A crafter that is capable of casting magic can replace the spell scroll in an enchantment with the ability to cast that spell, but when doing so they must cast that spell for each crafting check they make on that item. This is an exhausting process, draining their magic far more deeply than normal casting, and confers a level of exhaustion each time this technique is used to replace a crafting check. If a magic item requires multiple scrolls, only one of them can be replaced in this way, though if an additional spell caster that can cast the necessary spell can assist you, they can replace a second scroll, though suffering the same penalty.

EXHAUSTING & DIFFICULT METHOD

This mechanic is intentionally quite difficult to use—even for casters that are capable of casting the spell. The typical process would be to make the scroll first to formalize their thoughts and process, laying down the patterns and templates for the magic item. It also removes a very costly gate in the process, so should not be easily bypassed.

CRAFTING ROLL

Putting that together means that when you would like to enchant an item, your crafting roll is as follows:

Enchanting Modifier = your Arcana proficiency bonus
+ your Intelligence modifier

SUCCESS AND FAILURE

After you make a crafting roll, if you succeed, you make 2 hours of progress toward the total crafting time (and have completed one of the required checks for making an item).

Checks for Enchanting do not need to be immediately consecutive. If you fail three times in a row, all progress and materials are lost and can no longer be salvaged. Failure means that no progress is made during that time.

Once an item is started, even if no progress is made, the components reserved for that item can only be recovered via salvage.

ENCHANTING EXAMPLE AND WALKTHROUGH

Caius the Wizard has a keen interest in magic items. At the start, all he has is the Arcana skill and big dreams. Let’s walk through how to turn those into a magic item.

Caius the Wizard happens to be a level 4 wizard in this moment in time. Strangely, he’s the only human in his party, and his lack of darkvision has been holding them back.

So, Caius decides to embark on making a set of Goggles of Night. Let’s follow his journey:

First, he’ll need to gather the materials. He needs goggles, a scroll of darkvision, a common primal essence, and an uncommon arcane essence. Goggles are easily acquired from the local merchants for a few gold pieces, the rest will be a bit trickier.

A common primal essence isn’t that hard to come by, and can be found by harvesting elementals, dragons, giants, or monstrosities, even at the humble 0-4 CR rating of monsters Caius has been dealing with.

The uncommon arcane essence will require a hunt. His party takes on a CR 5 undead, but on their d100, they roll a 64... no luck, all that was left was some mangled bones and 3 uncommon poisonous reagents. After a few more tries, it seems luck isn’t with them. Fortunately, Caius has a plan. That uncommon poisonous reagent he got can be combined with an uncommon curative and uncommon reactive reagent in a simple 4 hour process with Alchemist’s supplies and a heat source (page 181).

Boiling them all down, he’s left with some magical residue forming an uncommon arcane essence. Now all he needs is the scroll of *darkvision*. Caius really should have this spell long since given his darkvision shortcomings, but never got around to it. So Caius shells out 90 gp to buy a scroll of it. Not to learn it though, of course, as soon he’ll never need that spell again!

All the pieces are assembled. As a level 4 Wizard with 16 Intelligence and proficiency in the Arcana skill, Caius’ Enchanting Modifier is 2 (his Arcana proficiency bonus) + 3 (his intelligence modifier), for a total of 5.

During his next long rest, Caius makes his first crafting check, and rolls a d20! It’s a 10. $10 + 5 = 15$, so he has a success. He’s 1/4th of the way done, but needs to spend the rest of that long rest sleeping.

The next day he rolls again, 6! That’s only 11! One failure. The next night it’s a 15 for a check of 20! That’s a second success. Tragedy almost strikes with the next two checks being a 4 and 2, with results of 9 and 7 respectively, that’s two more failures! All of his hard work is on the edge of being lost.

But Caius asks to take an extra long break at the next town. He uses the 4 hours to make his next check, taking a 10 on the roll to forestall disaster. As he wasn’t too ambitious and the Goggles of Night are only DC 13, that means by taking 10, Caius has a minimum check of a 15, and it’s a pass. Feeling better, now that he’s no longer one check from the whole project failing, he makes his next check on the road, and gets an 18, for a total of 24. A fourth success, and he can take his watch that night with darkvision at long last...

...unfortunately he’d been up too late working and fell asleep, so his party got ambushed anyway, but that’s a story for another time!

Caius the Wizard now can see in the dark as well as any pointy eared elf or long bearded dwarf! It took a bit longer than he’d hoped, but now Caius has his very first shiny magic item made by his own hands!

BOARDING PARTY^K

Weapon (any ammunition), uncommon

This is a magical piece of ammunition carved with pirate motifs. This piece of ammunition changes size to fit the size of the weapon used (becoming large when loaded into a large weapon). You can use this piece of ammunition to cast *translocating shot*^K once without expending a spell, targeting this piece of ammunition. Once used in this way, it can't be used again until the next dawn.

BOW OF MAGIC MISSILES^{TAG}

Weapon (any bow), very rare (requires attunement by a creature that is proficient with shortbows or longbows)

You gain a +1 bonus to attack and damage rolls made with this magic weapon. In addition, it has 5 charges. While holding it, you can expend 1 charge as an action and draw the bowstring, causing two gleaming arrows of magical force to materialize. You immediately fire each arrow at a creature that you can see within 600 feet of you. You can direct the arrows at one creature or multiple, and each arrow automatically hits its target, striking simultaneously.

You can choose to expend additional charges as part of the same action to fire one extra arrow per charge expended. Each arrow deals force damage equal to 1d6 + your proficiency bonus. The bow regains 1d4 + 1 expended charges daily at dawn. If you expend the bow's last charge, roll a d20. On a 1, the bow retains its +1 bonus to attack and damage rolls but loses all other properties.

Item by "TAG" (TheArenaGuy) of Spectre Creations

BREASTPLATE OF THE GOLDEN RETRIEVER^{DS}

Armor (breastplate), very rare (requires attunement)

You have a +1 bonus to AC and advantage on saving throws to resist being frightened while wearing this armor.

This armor has 3 charges, which it regains daily at dawn. As an action, you can expend 1 charge to cast the *warding bond* spell or 2 charges to cast the *faithful hound* spell from the armor without requiring material components. When *warding bond* is cast in this way, a spectral golden retriever appears next to the creature you are bonded with and follows it dutifully. The golden retriever is incorporeal and it can shed bright light in a 20-foot radius and dim light for an additional 20 feet upon the bonded creature's request (no action required).

Item and art by *Dungeon Strugglers*

CAPTAIN'S COAT^{DS}

Armor (studded leather), rare (requires attunement)

Functional and fashionable, this long pirate captain's coat is reinforced for combat and draws the eyes to its ornate design. While wearing this coat, you have proficiency in navigator's tools, vehicles (water) and you have a swimming speed equal to your walking speed.

Multiple pockets are hidden on the inside of the coat, able to conceal small objects. A creature attempting to search your person must succeed on a DC 15 Intelligence (Investigation) check in order to discover the hidden pockets.

Sailor's Mouth. Once per short or long rest, you can use a bonus action to cast the vicious mockery spell (save DC 15) while wearing the coat. When cast in this way, the target takes extra psychic damage equal to your Charisma modifier.

Item and art by Dungeon Strugglers

CAPTAIN'S COAT

CASCADE CATALYST^K

Wondrous Item, rare (requires attunement)

While holding this catalyst, you can use it as spell casting focus for your spells. When you roll damage for a spell, for each die that rolls its highest value, you can roll one additional die of the same type and add it to the damage dealt.

CRYSTAL KEY^K

Wondrous item, very rare

An intricate crystalline doorknob with intricate carved patterns. This crystal contains a psionically constructed space that can be manifested by placing it against any flat vertical surface large enough for a Medium-sized door to appear on, and speaking the command word. It creates a door that leads into this interdimensional space. The size of this space depends on the size of the object the doorknob is placed against. If the space is at least 10 feet long by 10 feet wide, it creates a simply furnished bedroom with a bed, light, chair

and desk. The atmosphere in the room is comfortable and the air is breathable.

For each additional 10 cubic feet of space in the object the door knob is placed in, additional rooms appear, in the following order:

- A bathroom furnished with wash tub and running water (the water is potable).
- A comfortable study furnished with a writing table, chair, bookshelves and fireplace.
- A workshop with basic artisan tools and work benches.
- A kitchen that contains no food, but all basic cooking tools, and an always hot oven.
- Additional bed rooms, up to four additional rooms.
- Anything created by the extradimensional space can't leave the extradimensional space.

These rooms are extradimensional and do not truly exist within the object, and can't be accessed by any means other than through the door (they do not structurally effect the object, or allow you to access entrances or areas within the object).

CRYSTAL BALL OF THIEVING^{DS}

Wondrous item, legendary (requires attunement)

This crystal ball is about 6 inches in diameter. While touching it, you can cast the scrying spell (save DC 17) with it.

You can use an action to cast the mage hand spell while you are scrying with the crystal ball, the spectral hand appearing within 30 feet of the spell's sensor. When cast in this way you can make the spectral hand invisible. When the scrying ends, so does the spell, and any object held by the spectral hand is teleported into your open hand or to an unoccupied space at your feet. Teleporting an object via this method is unreliable and has a chance to fail. Roll a d20 to determine if you are successful. If you have had physical contact with the object before add 5 to your roll. If the object has spent more than 24 hours in your possession, add 10. The DC is 15. On a failure, the object reappears in the space that it occupied before the spectral hand interacted with it, or in the nearest unoccupied space if that space is now occupied. Once used, the thieving power of the crystal ball can't be used again until the next dawn.

CRYSTAL BALL
OF THIEVING

Curse. Each time you successfully steal an item using this crystal ball, the owner of the item immediately sees an image of your face and hears your name in their mind. They don't necessarily know the context, but if your theft arouses suspicion, it's a likely deduction that you are related to the disappearance of their possession.

Item and art by Dungeon Strugglers.

DAGGER OF THE OGRE MAGE^{GS}

Weapon (shortsword), uncommon (requires attunement)

This blade was once used as a dagger by an ogre, but is nevertheless large enough to be a shortsword. You gain a +1 bonus to attack and damage rolls made with this magic weapon.

This blade's hilt is hollow and can hold up to 3 cantrip spell scrolls. Cantrip scrolls left within the compartment for 1 minute activate one of the three clear gems adorning its grip. Once activated, you can cast these cantrips at will using your spellcasting modifier. If you don't have a spellcasting modifier, use your Intelligence modifier instead. You have proficiency with these cantrips. Cantrips cast from the blade use the weapon as an arcane focus and allow you to perform any somatic components with the weapon instead of requiring a free hand. Scrolls contained within the sword are not destroyed after using them in this way.

When you cast a cantrip using the sword that deals damage, the sword's damage type changes to match the cantrip's for 1 minute or until you end it early (no action required).

Item and art by Griffon's Saddlebag

DAGGER OF THE
OGRE MAGE

DARK FATHOM ARMOR^{GS}

Armor (studded leather), very rare (requires attunement)

This dark, sea-soaked suit of armor smells of brine and is covered in eldritch runes. You have a +1 bonus to AC and can breathe normally underwater while wearing this armor.

In addition, while wearing this armor, you can use an action to cast the *black tentacles* spell (save DC 15) from it. When cast in this way, the spell targets a 15-foot square centered on your location that does not follow you when you move. In addition, you do not need to concentrate on the spell and are immune to its effects when cast in this way. Once this property has been used, it can't be used again until the next dusk.

Item and art by Griffon's Saddlebag

DARK FATHOM
ARMOR

DECOMBOBULATOR^K

Wondrous item, rare

This small mysterious device can emit a projected field within 5 feet of it that heats matter until it undergoes a state change, from a solid to a liquid, or from a liquid to a gas. It has no effect on gas. The target area is always in the shape of a cube, and can be as small as a 1 inch cube or as large as a 5 foot cube. The process takes 1 minute. If a creature ends its turn in the projected field, it takes 2d6 fire damage. This damage doubles each consecutive turn it ends in the area. This damage is also taken by any creature attempting to hold or touch something in the area of effect. This field may burn away the effects of some spells that would be subject to its effects at the discretion of the GM.

DOODLE RING^{GS}*Ring, common*

This magic wooden ring is always covered in splotches of charcoal, ink, or paint, regardless of how well or often it's cleaned. While wearing the ring on a finger, you can touch that finger to a solid surface and begin to draw. The drawing uses your finger to make marks as if it were a piece of charcoal, ink quill, or paintbrush (your choice). The marks you make can be in any color. Any drawing made by the ring can be easily smudged or washed away without leaving any marks behind. The ring can have up to a total of 5 square feet covered with drawings in this way at any time. Drawing more than that begins to erase the previous marks, and any mark left after 24 hours of being made is magically erased.

Item and art by Griffon's Saddlebag

DOODLE RING

DRAGON TAMER LANCE^{GS}*Weapon (lance), legendary (requires attunement)*

This slender, iridescent lance is covered in an enchanted finish that resembles the hardened scales of many dragons. You gain a +1 bonus to attack and damage rolls made with this magic weapon. While attuned to the weapon, you can understand and speak Draconic.

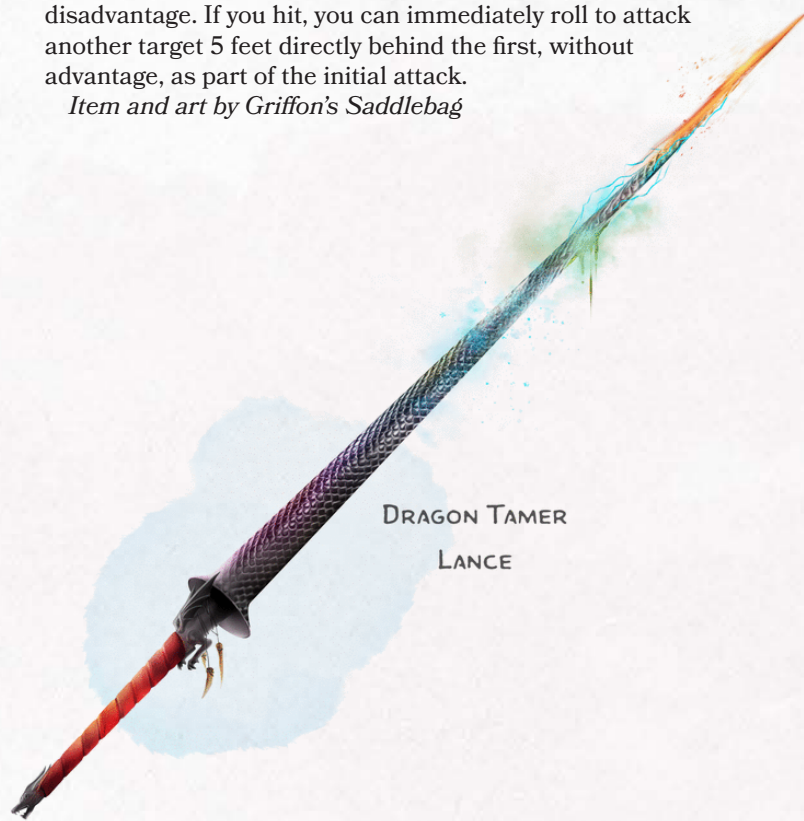

This lance has 8 charges and regains 1d4 + 4 expended charges each day at dawn. When you hit a target with the lance, you can expend 1 of its charges to deal an extra 3d6 acid, cold, fire, lightning, or poison damage (your choice) to the target. If you expend a charge in this way when you hit a dragon, it must also succeed on a DC 17 Wisdom saving throw or become frightened of you until the beginning of your next turn. For the purpose of this weapon, "dragon" refers to any creature with the dragon type, including dragon turtles and wyverns.

Whenever you expend a charge in this way to deal extra damage, you can choose to expend a 2nd charge and deal an extra 1d6 damage of the same type to the target and prevent it from using its reaction until the start of its next turn.

Wyrmling Steed. In addition, while holding the lance, you can use an action to cast the find steed spell from it. Once this property has been used, it can't be used again until the next

dawn. When you use the lance to cast this spell, you can choose to summon a dragon wyrmling instead of a normal mount by expending a number of charges equal to its challenge rating (maximum 2). You determine the kind of dragon summoned, although its alignment towards good or evil must be the same as your own. If your alignment is neutral, you can summon a wyrmling of either alignment. The wyrmling counts as one size larger when used as a mount and cannot use its breath weapons.

Forceful Impact. If you move at least 20 feet straight toward a Medium or smaller target and then make a melee attack with the lance against it while within 5 feet of the target, you make the attack with advantage instead of disadvantage. If you hit, you can immediately roll to attack another target 5 feet directly behind the first, without advantage, as part of the initial attack.

LANCE**ESSENCE CRYSTAL^K***Wondrous item, rare (requires attunement)*

A translucent crystal capsule that contains a small amount of a mysterious dark colored liquid.

d6	Essence Color	Attribute
1	Deep Crimson	Strength
2	Forest Green	Dexterity
3	Amber Orange	Constitution
4	Honey Yellow	Wisdom
5	Azure Blue	Intelligence
6	Rich Purple	Charisma

While in possession of this crystal, an attuned creature gains a +1 bonus to ability checks and saving throws of the crystal's attribute type.

These crystals can be cracked, and the liquid inside makes a potent essence for forging powerful runes.

Curse. While attuned to the crystal, you have vivid dreams of lives that are not your own, seeing glimpses of the souls that contributed their essence to the liquid within the crystal.

GALVANIC SPINE^K

Weapon (whip), rare (requires attunement)

A segmented metallic whip that crackles with lightning. You have a +1 bonus to attack and damage rolls made with this magic whip, and it deals an extra 1d4 lightning damage on hit.

This whip is highly articulated and can move with surgical precision, allowing it to serve as an extended reach for certain tasks. As an action, you can attempt to grapple a creature, entangling with the whip. When you do so, you can make a Dexterity (Athletics) check to initiate and maintain the grapple (instead of Strength). A creature that starts its turn while grappled with this whip takes 1d4 lightning damage.

Additionally, you can pick up objects weighing 10 pounds or less within 10 feet, pulling them toward you, or interact with objects within 10 feet. You can use as a set of thieves' tools +1 when interacting with objects within 10 feet.

HELM OF HEROES^{GS}

Wondrous item, rare (requires attunement)

You gain a +1 bonus to AC if you're wearing no armor while wearing this helmet. You can still use a shield and gain this benefit. In addition, while wearing no armor, the helm becomes suffused with glory and glimmers for 1 minute whenever you roll a 20 on an attack roll. While the helm is glimmering in this way, you gain temporary hit points at the start of each of your turns equal to half your level, and friendly creatures within 10 feet of you can't be frightened.

HELM OF
HEROES

HERO'S SHEATH^K

Wondrous item, rare (requires attunement by a paladin)

An ornate sheath built for a longsword, this sheath infuses a blade stored within with divine power. When you draw a weapon stored in this sheath, the first attack you make with it after drawing it forth has a range of 30/60 (using the weapons normal attack modifier), and deals radiant damage instead of slashing damage.

If you expend a spell slot to empower this special attack using your Divine Smite feature, the blade emits a holy blast that deals damage equal to the Divine Smite targeting all creatures within 15 feet. The range of the cone increases by 15 feet for each level of spell slot expended on the Divine Smite. The target of the attack takes the Divine Smite damage as normal if the attack hits, while all other creatures in the area must make a Dexterity saving throw with a DC of 16. On failure, they take radiant damage equal to the damage dice of the Divine Smite damage (this is not doubled if the attack is a critical hit), or half as much damage on a successful saving throw.

A longsword that is sheathed in this sheath for at least 24 hours is infused with divine power. Its damage die is increased by one step (from a d8 to a d10, and its versatile damage from a d10 to a d12) and it counts as magical for the purposes of overcoming resistance to damage. This bonus lasts until another weapon is sheathed in this sheathed.

HOLY SYMBOL OF THE ARCANES^K

Wondrous item, rare (requires attunement by a cleric)

This is a special holy symbol often belonging to the order of a god dedicated to knowledge or magic, imbued with special power by the god or their agents with the ability to confer arcane magic to a disciple.

When an attuned user is preparing spells for the day, they can prepare spells from the wizard spell list in addition to the cleric spell list, but any spell prepared in this way is prepared at one level higher than it normally would be. For example, if they were to use this holy symbol to prepare the *fireball* spell from the wizard list, it would be prepared as if were normally a 4th-level spell (not gaining benefits from being up casted as a 4th-level spell).

An attuned cleric can have a number of spells prepared this way equal to their Wisdom modifier.

HULKING BRACERS^K

Wondrous item, uncommon (requires attunement)

While wearing these bracers, as an action you can gain the Enlarge effect from the *enlarge/reduce* spell without requiring a spell slot or concentration. The effect lasts until deactivated as a bonus action. You can remain enlarged for up to 1 hour per day, all at once or in several shorter uses. If you run out of time while enlarged, you shrink to your normal size. The bracers regain their 1 hour of usage at dawn each day.

JAVELIN OF THE HARPY EAGLE^{DS}*Weapon (javelin), rare (requires attunement)*

This barbed javelin embeds itself into creatures and hinders their movement. A creature hit by this javelin has its speed reduced by 10 feet until the javelin is removed. While you are within 120 feet of the javelin and you can see it, you can use a bonus action to speak its command word, causing the javelin to viciously remove itself from the target and fly back to your open hand or to an unoccupied space at your feet. You can choose to remove the javelin as a part of the attack while wielding it in melee. Alternatively, any creature can remove the javelin with an action. When the javelin is removed, the barbs deal an extra 1d6 piercing damage to the creature.

*Item and art by Dungeon Strugglers*JAVELIN OF
THE HARPY EAGLE**SHAWM OF SUNDERING^{DS}***Wondrous item, uncommon (requires attunement by a bard)*

When a creature adds one of your Bardic Inspiration dice to an attack or damage roll, and they hit a target within 60 feet of you, you can play the shawm as a reaction to deal thunder damage equal to one roll of your bardic inspiration die to the target.

Additionally, you can play the shawm as an action to cast thunderwave, shatter, or lightning bolt, and that spell can't be cast from it again until the next dawn.

*Item and art by Dungeon Strugglers*SHAWM OF
SUNDERING**RAIMENT OF THE RACCOON^{DS}***Armor (studded leather), very rare (requires attunement by a rogue)*

You have a +1 bonus to AC while wearing this armor. While wearing it, you are imbued with the hardiness of a raccoon. Your rogue feature Evasion now applies to Constitution saving throws as well.

Keen Sense of Touch. While wearing this armor you develop a hypersensitive tactile awareness. You can add your Wisdom modifier to Dexterity (Sleight of Hand) checks, thieves' tools checks and Intelligence (Investigation) checks that use your sense of touch. You can reliably detect the surface details, such as engraved writing or material properties, of an object by touching it.

Curse. While attuned to this armor you become obsessively hygienic. You must spend at least 10 minutes washing your hands to benefit from a short or long rest and you prefer to dunk your food into water before eating it.

*Item and art by Dungeon Strugglers*RAIMENT OF
THE RACCOON

SQUALL COLLAR^{DS}*Wondrous item, rare (requires attunement)*

This cold steel choker is forged into the shape of a roiling storm. It gives you a static shock when touched. It has 3 charges. While wearing the collar, you can use an action and expend 1 charge to cast sleet storm (save DC 15) from it. The Squall Collar regains all expended charges daily at dawn.

Amplified. If the Squall Caller is within 60 feet of this collar, it gains the following properties:

Wearing the collar allows you to see normally through heavily obscured areas caused by weather or spells such as sleet storm or fog cloud. The saving throw DC for spells cast from the collar increases to 16. When you are targeted with an attack that deals thunder or lightning damage, you can use your reaction to gain resistance to the triggering damage type until the start of your next turn. Additionally, the Squall Caller deals an extra 1d8 of the triggering damage type for 1 minute. Once the collar is used in this way, the ability cannot be used again until the next dawn.

Item and art by Dungeon Strugglers

SQUALL COLLAR

**SQUALL CALLER^{DS}***Weapon (battleaxe), uncommon (requires attunement)*

This battleaxe has the thrown property with a normal range of 20 feet and a long range of 60 feet. It has 3 charges. While holding the battleaxe, you can use an action and expend 1 charge to cast gust of wind (save DC 13) from it. The Squall Caller regains all expended charges daily at dawn.

Amplified. If the Squall Collar is within 60 feet of this battleaxe, it gains the following properties:

- You gain a +1 bonus to attack and damage rolls made with this magic weapon.
- Immediately after being thrown, the battleaxe flies back to your hand.
- The saving throw DC for spells cast from the battleaxe increases to 15.
- When you cast gust of wind from the battleaxe, the distance pushed increases by 5 feet and you can choose any number of creatures within the area of effect to automatically succeed on their saving throw. Additionally, you can choose to cast gust of wind without requiring concentration, but the spell ends at the start of your next turn.

SQUALL CALLER

**SCALE MAIL OF THE PANGOLIN^{DS}***Armor (scale mail), rare (requires attunement)*

While wearing this armor you gain a burrowing speed of 10 feet. You can use your burrowing speed to move through sand, loose earth, mud, or ice, not solid rock.

This armor can adjust itself to provide superior protection, allowing you to curl up into a ball as an action. Until you emerge (on your turn, no action required), you gain a +5 bonus to AC, and you have advantage on Strength and Constitution saving throws. While curled up, you are prone, your speed is 0 and can't increase, you have disadvantage on Dexterity saving throws, and you are incapacitated. Attack rolls made against you do not have advantage normally granted by the prone condition. Additionally, a creature can roll you along the ground in front of itself if it succeeds on a DC 10 Strength check (no action required).

Item and art by Dungeon Strugglers

SAVAGE TALISMAN^K*Wondrous item, uncommon (requires attunement)*

While wearing the talisman, you gain a +1 bonus to the attack rolls and the damage rolls you make with unarmed strikes and natural weapons. Such attacks are considered to be magical.

THEURGE'S LIBRUM^K*Wondrous items, very rare (requires attunement by a wizard)*

This hefty ornate spell book remains pristine in all conditions, its cover depicting detailed sacred inscriptions. After studying the contents of this book for 8 hours, the user can comprehend a unifying theory of divine and arcane power, though such a comprehension mystically fades from the mind if they ever lose possession or unattune from the librum, until they are once more in possession and attuned to the librum.

When found, the librum contains the following spells: *cure wounds*, *bless*, *lesser restoration*, *gentle repose*, *revivify*, *spirit guardians*, *commune*, *guardian of faith*, *dawn*, and *mass cure wounds*. The spells contained within can be prepared as Wizard spells for the attuned user, but can't be copied out of the spell book. Casting these divine spells exerts a special strain on a wizard, however, and they can only cast a total number of spell slots of spells that do not appear on the Wizard list from this book equal to their Wizard level, after which they must finish a long rest, refreshing the number of spells they can cast.

In addition, it contains 10 empty pages, each of which can contain one additional spell from the cleric list. If you come across a cleric spell in written form (such as a scroll) the spell can be permanently copied into the librum, expending one of the empty pages. The process of copying the spell into your ritual book takes 2 hours per level of the spell, and costs 50 gp per level. The cost represents the material components you expend as you experiment with the spell to master it, as well as the fine inks you need to record it.

QUANTUM CHAOS BOX^K*Wondrous item, rare*

This is a mysterious box that harnesses primordial chaos to manipulate aspects of reality within it, creating random chaotic things. When opening this box, roll a 1d12 to determine the results. If opened again, the box is empty until the next dawn.

1d12**Contents of Box**

- | | |
|---|---|
| 1 | 1d4 hostile swarms of rats under the effect of fire shield |
| 2 | 1d12 berries created by the goodberry spell. |
| 3 | A small piece of a star. It explodes violently. All creatures within 20 feet must make a DC 15 Dexterity saving throw or take 3d12 fire damage, or half as much on a successful save. |
| 4 | The last consumable item you used, of uncommon rarity or less, or a <i>potion of healing</i> (if no consumable item applies). |
| 5 | A small wooden toy. It looks quite old. |

- | | |
|----|---|
| 6 | A key. Someone probably lost it. |
| 7 | 1d4 delicious looking fresh fish. Cooking and eating them gives a creature up to 10 temporary hit points, as long as they are cooked within 1 hour of opening the box. |
| 8 | A diamond worth 1d100 gp. |
| 9 | Another box that looks identical to the Quantum Chaos Box, just very slightly smaller. It is a hostile mimic. |
| 10 | A letter written in an incomprehensible language. If somehow decoded it might be a mundane letter, or a spell scroll for a spell on the Warlock spell list of 3rd level or lower. |
| 11 | Nothing |
| 12 | A single bean from a magical bag of beans. |

ADDITIONAL EFFECTS

An ambitious GM can replace any effect rolled with a new effect (either positive or negative) to keep the box indefinitely chaotic. Ideas that might lead to further adventures can even be included. Imagine the ramifications of opening the box and finding a lich's phylactery.

YVES' THIEVES' TOOLS^{DS}*Wondrous item, uncommon (requires attunement)*

You have a +1 bonus to ability checks using these thieves' tools. As an action you can hold these tools up to a door to hear through it, as long as it's no thicker than 1 foot, alerting you to the location of any creatures within 20 feet of the door. If you set off a trap while using these tools to pick a lock, you have advantage on any saving throws to resist the trap.

Item and art by Dungeon Strugglers**CONTRIBUTED ITEMS**

To expand the list beyond the SRD, the system includes items from talented creators like Dungeon Strugglers (DS), Griffon's Saddlebag (GS), and Spectre Creations (TAG). These items are used with permission, and a tiny fraction of their overall catalog. If you like the look of their stuff, you can find far more from them online.

INFUSED GEMS

BRILLIANT DIAMOND^K

Gemstone, common

This diamond gives off 5 feet of dim light when not socketed. When socketed into a weapon, ring, or necklace, a creature holding that weapon or wearing the piece of jewelry can use their action to cast the *light* spell, targeting the item the gem is socketed into.

EFFERVESCENT EMERALD^K

Gemstone, common

This emerald has a swirling light within. When socketed into a weapon, checks to apply poison to that weapon automatically succeed. When socketed into a ring or necklace, a creature wearing that piece of jewelry can use their action to cast the *poison spray* cantrip.

FLICKERING RUBY^K

Gemstone, common

This ruby flickers like a torch, giving off 5 feet a bright light and an additional 5 feet of dim light when not socketed. When socketed into a weapon, as an action you can cause the weapon to burst into flames, dealing an extra 1d4 fire damage for 1 minute. Once used in this way it can't be used again until dawn. When socketed into a ring or necklace, a creature wearing that piece of jewelry can use their action to cast the *produce flame* cantrip.

GLITTERING GARNET^K

Gemstone, uncommon

This blood red gem glitters like blood in the dark. When socket into a melee weapon, any time a creature deals more than 10 slashing or piecing damage to a target with blood, the wielder regains 1 hit point. When socketed into a ring or necklace, the wearer regains one additional hit point when they spend a Hit Die.

MAGIC DIAMOND^K

Gemstone, uncommon

This diamond gives off 5 feet of bright light and 5 feet of dim light when not socketed. When socketed into a weapon, the weapon becomes magical for the purposes of overcoming resistance. When socketed into a ring or necklace, a creature wearing that piece of jewelry can use their action to cast the *force bolt*^K cantrip.

SPARKLING SAPPHIRE^K

Gemstone, uncommon

This sapphire sparkles dimly with an internal light. A creature can infuse a 1st-level spell (expending a spell slot) or cantrip, causing it to sparkle more brilliant. Subsequently, a creature hold the gem, a weapon the gem is socketed into, or a piece of

jewelry the gem is socketed into, can cast the spell as if they are casting the spell. If the creature has a spellcasting feature, they can use it to cast the spell without expending a spell slot, discharging the power in the gem. If a creature doesn't have the spellcasting feature, their spell attack modifier is +3 and their spell save DC is 11 for any spell cast. The effects of a spell cast using this sapphire can't persist for more than 10 minute (for example, a familiar summoned with it would last 10 minutes rather than indefinitely).

PERFECT INFUSION^K

Gemstone, uncommon

A gem infused so perfectly that it readily accepts power. You can activate this gem as a reaction when you take acid, cold, fire, lightning or thunder damage. The gem grants you resistance to the triggering damage type until the start of your next turn. After triggering it, the first time you hit with a melee attack on your next turn, the target takes an extra 1d6 elemental damage of the triggering type. Once activated, it can't be activated again until you finish a long rest.

PSIONIC ITEMS

Psionic items are a special category of item that are powered by psionics. Some of them will work for any user, some of the require the user to have psionic abilities.

VISION STONE^K

Wondrous item, common

A creature holding this crystal can view or record a single scene within in, viewed as if by the recording creatures eyes. This memory can be up to 1 minute long, and includes sights, sounds, and faint emotions. A memory can be faked, but doing so requires exceptional deception to make it seem accurate. When storing a fake memory make an Intelligence (Deception) check. A viewer can detect a fake memory with a Wisdom (Insight) check equal to or higher than to the deception check minus 5.

AMPLIFYING CRYSTAL^K

Wondrous item, uncommon/rare/very rare (requires attunement by a psionic character with one or more psi points)

While holding this crystal, you gain a bonus to psionics attack rolls and to the psionic saving throw DCs of your psionic abilities. The bonus is determined by the crystal's rarity

In addition, when you use a psionic power, you can gain add a number of psi points determined by the crystal's rarity; these points can only be used on psionic powers, but can exceed your normal psi limit. You can't use this property again until you finish a long rest.

Rarity	Modifier	Points Added
Uncommon	+1	1
Rare	+2	2
Very Rare	+3	3

BLASTING CRYSTAL^K

Wondrous item, uncommon (requires attunement by a psionic character with one or more psi points)

While holding this crystal, an attuned user can focus their psionic powers into it emit a powerful psionic blast. It emits a ray of concentrated psionic power blasts toward a creature or object you can see within 60 feet. Make a ranged spell attack. On hit, it deals 1d10 + your Psionics modifier force damage.

You can spend psi points add the following modifiers to (you can add multiple modifiers). The points must be spent when choosing the target of the power. If you have the Psionic Mastery feature, you can spend mastery points on this as if was a psionic power.

Amplified Blast (1–3 points). The target takes an extra 1d10 force damage.

Omni Blast (1+ points). The blast targets a number of additional creatures equal to the psi points spent.

Soul Blast (1 point). The blast damage becomes psychic damage, and treats the targets AC as 10 + their Dexterity modifier.

FOCUSING CRYSTAL^K

Wondrous item, uncommon, (requires attunement by a psionic character with one or more psi points)

While holding this crystal, you can use it to focus your mind, more perfectly opening your psionic senses. You can use this spell to cast *clairvoyance* without expending psi points. Once while the effect is active, you can use a Psionic ability (power, spell or talent) that doesn't deal damage on a creature within range of the sensor as if it was in range and sight of you. You can't use this property again until you finish a long rest.

At the start of your turn, you can focus this crystal (as if concentrating on a spell) and reduce your speed to 0. When you do so, until the end of your turn the range of all psionic abilities with a range other than touch are doubled.

PSI BLADE CRYSTAL^K

Wondrous item, uncommon/rare/very rare

Embedded in a ring, bracer, bladeless sword hilt, or similar item, this small gem seems to have minimal value to the casual observer, but has perfect psionic resonance.

While carried by a Way of the Soul Knife Monk, that monk can use this crystal to focus a purer Soul Knife, adding +1/+2/+3 (based on rarity) to attack and damage rolls with their Soul Knife.

Some crystals come in various colors, and change the hue of your psi blade to match the color of the crystal.

PSIONICALLY ATTUNED WEAPON^K

Weapon (any melee weapon), uncommon

This weapon is perfectly attuned to conducting psionic energy. While wielding it, you gain the Psionic Weapon talent, but it can only be used when targeting this weapon. When you use

Psionic Weapon, the weapons gains a bonus to attack and damage rolls equal to the number of psi points spent, up to a maximum of +3 with three psi points spent.

RESONATING CRYSTAL^K

Wondrous item, uncommon (requires attunement by a psionic character with one or more psi points)

This is a crystal that has been fundamentally warped by exposure to psionic powers. It now holds the perfect resonance to trap and hold psionic energy, though it doesn't naturally generate it.

While holding this crystal, as an action you can imbue up to 4 psi points into it. While it is imbued it gives off 10 feet of bright light and 10 feet of dim light with a eerie purple hue.

If it has one or more points imbued in it, as an action you can reclaim the psi points stored in it, regaining expended psi points from it up to your maximum psi points.

IMPRINT CRYSTAL^K

Wondrous item, rare (requires attunement)

While attuned, you gain one psionic talent from the Psion class. It can't be one with any prerequisites.

PURITY OF MIND^K

Wondrous item, rare (requires attunement by a psionic character with one or more psi points)

A blindfold made of heavy silken cloth, it is emblazoned with strange patterns. When worn, you are lose any normal vision that relies on your eyes and are blinded but gain several benefits as your mind is cleared of visual distractions.

- You gain a mindsight of 60 feet, allowing you to see creatures with an intelligence of 6 or higher within range as if by blindsight. A creature you are unaware of can still be hidden from you.
- You gain a blindsight of 10 feet. If you already have a blindsight, its range is increased by 10 feet.
- You are immune to effects that require you to see the target or effect, even if they are within your mindsight or blindsight.

MIND SHARD^K

Wondrous item, very rare (requires attunement)

A crystalized beacon of pure telepathic power. A holder of this stone can cast *command* and *charm person* at will. The stone has 8 charges, regaining 1d6 + 2 at dawn. You can expend 2 charges to cast *suggestion*, 5 charges to cast *dominate person*, or 8 charges to cast *dominate monster*.

SOUL SHARD^K

Wondrous item, legendary (requires attunement by a psionic character with one or more psi points)

A crystalized fragment of a dead psionic creature. How these form, few know. Many suspect dark secrets at their origin. These shards can be driven into the flesh of another psionic creature, dealing 1d4 piercing damage and 4d12 psychic

damage and causing them to instantly become attuned to it. When you do so, you gain access to a Psionic Discipline that the creature it was formed from presumably had, along with one flaw formed from the fragment of their soul within the shard.

When you find a soul shard, the GM can determine the Discipline it contains and the flaw it confers while attuned, you can roll on the following table to determine them.

To unattune to it, must spend an action to try to rip it free. You must succeed a DC 15 Charsma saving throw. Each time you fail this this save, you take 4d12 psychic damage.

d6	Discipline
1	Telekinesis
2	Telepathy
3	Enhancement
4	Psychokinetics
5	Transposition
6	Precognition
d6	Flaw
1	Your anger grows harder to control, your eyes change color and start glowing when you become angry.
2	You hear a faint screaming at all times. It sounds almost... familiar.
3	A strange swirling tattoo-like scar very slowly grows from where it pierces you that burns painfully.
4	When you sleep, you have nightmares about another life filled with horror, fear and revulsion.
5	You cannot remember your own name, even when told.
6	You grow small vestigial tentacles along your jawline like a strange beard after being attuned to it for 1d4 days.

LOST ERA EMANATOR^{DS}

Wondrous item, very rare (requires attunement)

This ancient device is fueled by a mysterious power source. It hums to life and glows softly when held. The device's arcane design is nearly inscrutable and requires careful examination to decipher its function. In order to attune to the device, you must first succeed on a DC 16 Arcana check, otherwise the attunement fails and you can't attempt it again for 24 hours.

The device has 12 charges. While holding it, you can use the attack action to emit a ray of concentrated heat from the device, expending 1 charge for each attack. The device functions as a ranged weapon with the ammunition and two-handed properties, a normal range of 60 feet, and a long range of 240 feet. While you are attuned to it, you can add your proficiency bonus to attack rolls with the device. Additionally, when you attack with the device, you can use your Intelligence modifier, instead of Dexterity, for the attack rolls. The device deals 3d8 fire damage (this damage doesn't benefit from ability score modifiers) to any target it hits.

As an action, you can expend 3 charges to fire a supercharged ray from the device. The ray is 90 feet long and 6 inches wide. Any creature within this area must make a DC

16 Dexterity saving throw and take 8d8 fire damage on a failure, or half damage on a success. This ray is able to penetrate through 1 inch of metal, 6 inches of stone, or 1 foot of wood, leaving a scorched hole 6 inches in diameter.

The device regains charges by storing arcane energy. Any creature can cast a spell of 1st through 6th level into the device by touching it as the spell is cast. The spell has no effect, other than to be stored in the device. If the device can't hold the spell, the spell is expended without effect. The device regains 1 charge for each level of spell slot used.

Orville examined the strange device that he had just unearthed. It gleamed and glinted in the torchlight, despite its apparent age, and the craftsmanship was like nothing he had ever seen. He traced his finger along the intricate grooves and amber-like appendages, daydreaming about the people who could have crafted such a curious contraption.

ARCBLADE^{DS}

Weapon (longsword), very rare (requires attunement)

This item appears to be a longsword hilt. While grasping the hilt, you can use a bonus action to cause a blade of dark lightning to spring into existence, or make the blade disappear. While the blade exists, this magic longsword has the finesse property. If you are proficient with shortswords or longswords, you are proficient with the arcblade.

You gain a +2 bonus to attack and damage rolls made with this weapon, which deals lightning damage instead of slashing damage. When you hit a creature with it, you can cause lightning to arc from the target to a different creature of your choice that you can see within 5 feet of it. The second creature takes 1d8 lightning damage.

The arcblade is able to absorb ambient electrical energy to briefly enter a supercharged state. If you take lightning damage while this weapon's blade is active, you can use your reaction to capture some of that energy and store it for up to 1 minute. The first time you hit with the arcblade before the end of the duration, the target takes additional lightning damage equal to half of the damage you took. This property can't be used again until the next dusk.

SCROLLSCRIBING

Scrollscribing is the process of creating magical scrolls. Critical both as useful ways to cast spells and as the core of the magic formula used in enchanting, every adventuring group's magic blokes are well served by the ability to make scrolls.

QUICK REFERENCE

While each step will go into more depth, the quick reference allows you to at a glance follow the steps to make a scroll in its most basic form:

- Select a **spell you know** that you would like to craft from spells you are able to cast, or through Alternate Methods (see "Magic Formula").
- Acquire the items listed in the **materials column** for a scroll of that level and type.
- Use your **Calligraphy Tools** to write the scroll using the number of hours listed in the Crafting Time column, or during a long rest using the crafting camp action if the crafting time is 2 hours or less.
- For **every 2 hours**, make a **crafting roll** of 1d20 + your Intelligence modifier + your proficiency with Calligraphy Tools (if you have proficiency in the Arcana skill)
- On success, you mark 2 hours of completed time. Once the completed time is equal to the crafting time, the magic item is complete. On failure, the crafting time is lost and no progress has been made during the 2 hours. If you fail 3 times in a row, the crafting is a failure and all materials are lost.

RELATED TOOL & ABILITY SCORE

Scrollscribing works using Calligraphy Tools. Attempting to craft a scroll without these is impossible.

The related ability score is Intelligence. While spellcasters of any stripe can make scrolls of the spells they know, the process is one of systematic application of magical theory to lay down the spell in a function that can later be used.

Additionally, like its kin Wand Whittling and Enchanting, proficiency in Arcana is required; without proficiency in arcana, you can't add your Tool proficiency to the crafting roll.

SCRIPTURES

A GM can choose to allow a cleric to use Wisdom in place of Intelligence and require proficiency in Religion instead of Arcana. Scrolls produced this way are called Scriptures and can only be used by others of the same faith.

MATERIALS: INK & PARCHMENT

The materials for Scrollscribing are Ink and Parchment. Ink and Parchment used in scrolls is typically purchased, and below are the price tables. Some types of rare parchment may be processed from rare alchemical ingredients by an alchemist or from the hides of magical creatures by a leatherworker. If they are found as part of treasure, they are calculated as any other precious non-currency treasure would be calculated.

The ink used to create scrolls must be a special formulation that allows it to contain the magical essence behind the glyphs, script, runes, and words that make up a magical scroll. This ink is created by alchemists, but can be purchased at the below rates:

Component	Price
Common Magical Ink	15 gp
Common Parchment	1 sp
Uncommon Magical Ink	40 gp
Uncommon Parchment	40 gp
Rare Magical Ink	200 gp
Rare Parchment	200 gp
Very Rare Magical Ink	2,000 gp
Very Rare Parchment	2,000 gp
Legendary Magical Ink	5,000 gp
Legendary Parchment	5,000 gp

CRAFTING ROLL

When you would like to create a scroll, it will depend on your Intelligence and skill with Calligrapher's tools:

Scrollcrafting Modifier = your Calligrapher's Tools proficiency bonus + your Intelligence modifier.

SUCCESS AND FAILURE

After making a crafting roll, if you succeed, you make 2 hours of progress toward the total crafting time (and have completed one of the required checks for making an item).

Checks for Scrollscribing do not need to be immediately consecutive. If you fail three times in a row, all progress and materials are lost and can no longer be salvaged. Failure means that no progress is made during that time.

Once an item is started, even if no progress is made, the components reserved for that item can only be recovered via salvage.

CRAFTING WITHOUT ESSENCE

A crafter that is capable of casting magic can replace the essence when crafting a spell scroll with the ability to cast that spell, but when doing so they must cast that spell for each crafting check they make on that item. This is an exhausting process, draining their magic far more deeply than normal casting, and confers a level of exhaustion for each crafting check made this way.

A DIFFICULT PROCESS

This is intentionally a difficult process, as stockpiling spell scrolls is something that should be challenging, otherwise magic can end up trivializing many encounters, and this method of crafting removes a large potential cost barrier.

MAGICAL FORMULA

To craft a spell scroll, you must know the Magic Formula of the spell you want to make a Spell Scroll of. The easiest way to do this is to be able to cast the spell. You always know the Magic Formula of a spell you know how to cast. Otherwise, you need to have deep knowledge of the spell to be able to

make a scroll of it. The following are some ways you can gain that knowledge:

- Have it in your spellbook as a Wizard.
- Have it in your spellmanual as an Infusionsmith Inventor.
- Have it in your ritual book as a ritual caster.
- Have a spell scroll of it (DC +2)
- Have someone that knows the spell dictate it you for the entire duration of the crafting time (DC +2)
- Study its magical formula and record it. To learn a spell in this way requires proficiency in arcana and 1 day (8 hours per day) of study per level of the spell, as well as access to a teacher or book that records the spell. Once learned, you can record it in a Magical Formula book and can subsequently make scrolls of it.

MATERIAL COMPONENTS

If a spell requires a consumed material component to cast, it is required as an ingredient to make the scroll.

SCROLL ESSENCE TYPE

The type of Essence is determined by the spell list the spell comes from; if it is on multiple spell lists, it is determined by how you have access to the spell. If you have access to the

spell via multiple lists or the written form of the spell, you can pick which Essence to use for spells that have multiple option.

Essence Type	Spell List
Arcane	Inventor, Bard, Occultist, Sorcerer, Warlock, Wizard
Divine	Cleric, Occultist, Paladin
Primal	Druid, Occultist, Ranger
Psionic	Monk, Psion

WAND WHITTTLING

Unlike many magic items that are crafted and then enchanted with magic, a wand is purpose built to store the magic it will contain, worked from wood and infused with magic as a single process, with different intricacies based on the type of magic it will wield.

Wands are very valuable to adventurers, and the power they wield should never be underestimated, as they can save precious resources. While the typical wand is an attunement item that can recharge, there is a weaker variety of lesser wands that are consumable items, more akin to multi-use scrolls that are easier to make.

QUICK REFERENCE

While each step will go into more depth, the quick reference allows you at a glance to follow the steps to make a wand in its most basic form:

- Select a wand from the Greater Wand Table you would like to make, or a spell you would like to make a Lesser Wand of.
- Acquire the items listed in the materials column for a Wand from the appropriate table.
- Use your Woodcarver's tools to create the wand using the number of hours listed in the Crafting Time column, or during a long rest using the crafting camp action if the crafting time is 2 hours or less.
- For every 2 hours, make a crafting roll of 1d20 + your

- Dexterity modifier + your proficiency with Woodcarver's tools. On success, you mark 2 hours of completed time. Once the completed time is equal to the crafting time, the wand is complete. On failure, the crafting time is lost and no progress has been made during the 2 hours. If you fail 3 times in a row, the crafting is a failure and all materials are lost.

RELATED TOOL & ABILITY SCORE

Wand whittling works using Woodcarver's tools. Attempting to craft a wand without these is impossible.

The related ability score is Dexterity. While spellcasters of any stripe can make wands of the spells they know, the process is one of systematic application of magical theory to integrate the spell into a wand in a function that can later be used.

Additionally, like Scroll Scribing and Enchanting, proficiency in Arcana is required; without proficiency in arcana, you can't add your Tool proficiency to the crafting roll.

MATERIALS: WOOD & ESSENCE

The Materials for Wand Whittling are wood and essences. The wood used in wands is typically purchased, and below are the table of prices. If they are found as part of treasure, they are calculated as any other precious non-currency treasure would be calculated. Low-level wands can use common woods

that are not magically attuned, but more powerful magic will cause such mundane wood to instantly splinter or catch fire, requiring the use of rare and exotic woods.

Essences are varied in nature, but are what power wands. Essences are shared with Enchanting, and more details can be gleaned from the Essences section under Enchanting.

WHAT ARE RARE WOODS?

The most common examples would be from trees in exotic locations—wood from the Feywild or from the outer planes. The exact nature of the wands can match the spell for flavor, but the details beyond rarity are not considered by default for the system. Some examples are provided at the end of this section.

PURCHASING WOODEN BRANCHES

Like with many materials, one popular method of acquisition is to simply spend gold. A piece of wood here is typically a branch about 2–3 feet long and moderately narrow, suitable for a wand with some whittling.

Rarity	Material Price
Common Branch	1 sp
Uncommon Branch	25 gp
Rare Branch	80 gp
Very Rare Branch	800 gp
Legendary Branch	2,000 gp

CRAFTING ROLL

When you would like to make a wand, it relies on your woodcarver's tools, and Dexterity to use them.

Wand Whittling Crafting Modifier = your Woodcarver's Tools proficiency bonus + your Dexterity modifier

SUCCESS AND FAILURE

For Wand Whittling, after you make the crafting roll and succeed, mark your progress on a crafting project. If you succeed, you make 2 hours of progress toward the total crafting time (and have completed one of the required checks for making an item). Checks for Wand Whittling do not need to be immediately consecutive. Failure means that no progress is made during that time. As usual, failing three times in a row results in the crafting project being a failure, and all materials are lost.

WAND WHITTling SAVING THROW

Some wands require a saving throw, the following is the formula for calculating the saving throw. The saving throw is calculated at the time of creation based on the creators attributes and proficiency, and doesn't change once it is created. A saving throw doesn't include any expertise or other bonuses a crafter has to the crafting roll.

Wand DC = 8 + your related tool proficiency bonus + your Intelligence modifier

LESSER & GREATER WANDS

Many adventurers are most familiar with greater wands, forged with such skill and power that their power regenerates each day at dawn, providing nearly unlimited ability to wield magic. These are, however, the more rare exception: Greater Wands. Their weaker cousins (Lesser Wands) work in a similar fashion, but do not naturally recharge, and must be recharged to be used again.

RECHARGING LESSER WANDS

Recharging lesser wands is fairly simple; you can either expend 1 essence of the rarity required to craft that wand and perform a ritual that takes 2 hours, expending the essence and restoring all charges to the Lesser Wand, or you can expend 2 spell slots equal to the level of the spell the wand can cast (1st level for cantrip) during this ritual to recharge a single charge; you can repeat this ritual to recharge the wand multiple times, up to its maximum charges. If the spell requires a consumable component, this component must be spent to recharge the wand.

MAGICAL FORMULA

For Greater Wands, they have known formulas that can be deduced as part of crafting (as with Enchanting), and you do not need to know the spell or effect before crafting the Wand, though they are typically harder to craft.

To craft a Lesser Wand, you must know the Magic Formula of the spell you want to make a Lesser Wand of. The easiest way to do this is to be able to cast the spell. You always know the Magic Formula of a spell you know how to cast. Otherwise, you need to have deep knowledge of the spell to be able to make a Lesser Wand of it. The following are some ways you can gain that knowledge:

- Have it in your spellbook as a Wizard.
- Have it in your spellmanual as an Infusionsmith Inventor.
- Have it in your ritual book as a ritual caster.
- Have a spell scroll of it (DC +2)
- Study its magical formula and record it. To learn a spell in this way requires proficiency in arcana and 1 day (8 hours per day) of study per level of the spell, as well as access to a teacher or book that records the spell. Once learned, you can record it in a Magical Formula book and can subsequently make scrolls of it.

LESSER WAND ESSENCE TYPE

The type of Essence is determined by the spell list the spell comes from; if it is on multiple spell lists, it is determined by how you have access to the spell. If you have access to the spell via multiple lists or the written form of the spell, you can pick which Essence to use for spells that have multiple options.

Divine	Cleric, Occultist, Paladin

LESSER WAND^K

Wand, common/uncommon/rare/very rare/legendary

This wand has 3 charges. While holding it, you can use an action to expend 1 or more of its charges to cast the spell infused in it. For 1 charge, you cast the base version of the spell. You can increase the spell slot level by one for each additional charge you expend (if applicable for the spell). The DC of the spell is crafter's Wand DC.

The wand doesn't regain charges naturally, but can be recharged (see recharge rules for Lesser Wands).

Lesser wands that cast 3rd-level spells or higher require attunement to use.

SPELL COMPONENTS FOR LESSER WANDS

When crafting a lesser wand, if a spell requires a component that costs gold, the component is added to the materials requires to craft the wand. If the component is consumable, the wand requires a number equal to the charges it has (generally 3). A scroll used in creating a lesser wands counts in place of one component.

BLAST STICK^K

Wand, common

This wand has an 20 charges. This wand is considered a ranged weapon with a range of 60/180, and the Light property. It deals 1d6 force damage on hit. Each time you make an attack with it, it expends one charge. If you have a spellcasting modifier, you can use your spellcasting ability in place of your Dexterity modifier when making an attack with this wand.

The wand regains 1d10 + 10 expended charges daily at dawn. If you expend the wand's last charge, roll a d20. On a 1, the wand breaks.

GOODBERRY DISPENSER^K

Wand, common

This wand has 10 charges. While holding it as an an action you can tap the tip to your palm and expend 1 of its charges to create a single berry as if from the goodberry spell in your hand.

The wand regains 1d10 expended charges daily at dawn. If you expend the wand's last charge, roll a d20. On a 1, the wand explodes, producing a splattering burst of sticky and sour juice.

MAGICIAN'S WAND^K

Wand, common

This wand has has 6 charges. While holding it, you can use an action to expend 1 of its charges to cast minor illusion. When you cast minor illusion using this wand, you have advantage on Dexterity (Sleight of Hand) checks involving tricks or illusions until the end of your turn.

The wand regains 1d4 + 2 expended charges daily at dawn. If you expend the wand's last charge, roll a d20. On a 1, the wand breaks.

WAND OF CHORES^K

Wand, common

This wand has 6 charges. While holding it, you can use an action to expend 1 of its charges to cast prestidigitiation.

The wand regains 1d4 + 2 expended charges daily at dawn. If you expend the wand's last charge, roll a d20. On a 1, the wand breaks, dumping the last 10 instances of filth it has cleaned up.

WHISPERSTICK^K

Wand, common

This wand has 6 charges. While holding it, you can use an action to expend 1 of its charges to cast message. You need to point the wand at the target to cast it in this way.

The wand regains 1d4 + 2 expended charges daily at dawn. If you expend the wand's last charge, roll a d20. On a 1, the wand breaks, making a loud bang audible up to 100 feet.

APPENDIX A: CALCULATING NEW ITEMS

THE ITEM

This book is not a book about magic items, and the subject of how to make an item is beyond the scope of the appendix. This appendix will help you figure out how to craft an item you've already made. The first thing you need to know is the rarity of the item and if the item is consumable or not.

Rarity	Difficulty	Time	Estimated Labor Cost
Common	8–12	2–8 hours	0.1–16 gp
Uncommon	12–15	4–16 hours	8–144 gp
Rare	15–18	8–24 hours	72–912 gp
Very Rare	17–20	16–40 hours	3,760–3,980 gp
Legendary	20–25	24–40 hours	2,388–44,140 gp

Regardless if the item is consumable or not, it should generally fall into those ranges. Consumable items should fall to the bottom of the range, while more mechanically powerful items should fall into the highest reaches. That the labor cost of an easy to make Legendary Item can be cheaper than Very Rare items is intentional; the range of item cost and difficulty is very wide within rarities, even if the final cost of the item will result in them being ordered by rarity.

The next step is to add appropriate reagents of that the appropriate crafting branch of the rarity until you reach the following costs. The easiest way to do this will be to find a similar item that is already built out, and then replace any item that doesn't make sense of your item, or to increase or decrease the cost of the item as appropriate.

DEFAULT PRICING

Rarity	Consumable Price	Price
Common	25–50 gp	50–100 gp
Uncommon	50–250 gp	101–500 gp
Rare	250–2,500 gp	501–5,000 gp
Very Rare	2,500–25,000 gp	5,001–50,000 gp
Legendary	25,000+ gp	50,000+ gp

ENCHANTING & MAGIC ITEMS

The most complicated (and most common) use case is Enchanting. Not only does enchanting use the basic components of its system, it adds an additional element: Scrolls. Scrolls serve as the “magic blueprint” to an item, and replace the rule of recipes or blueprints in the system. If your magic item cast spells... this step is easy. The item takes the scrolls of those spells.

If it doesn't, find appropriate allegories to what the item does. The obvious example, is a *+1 weapon*. It doesn't cast a spell, but it does have the same effect as a *magic weapon* spell, so it can use that scroll. A *bag of holding* is more complicated, but you can follow the same logic—the *secret chest* spell doesn't exactly overlap, but it shares some properties... it's close enough for these purposes.

LABOR COST TABLE

The following is the labor cost table that drives the math of the system. You do not need actually use this to calculate your items, a rough estimation will suffice. This is provided for information purposes only.

- Labor: The cost per check.
- Risk Multiplier: A multiplier applied to the material cost of the item.
- Skill Level: This means nothing. It is just a narrative key.

You agree not to indicate compatibility or co-adaptability with any Trademark or Registered Trademark in conjunction with a work containing Open Game Content except as expressly licensed in another, independent Agreement with the owner of such Trademark or Registered Trademark. The use of any Product Identity in Open Game Content does not constitute a Challenge to the ownership of that Product Identity. The owner of any Product Identity used in Open Game Content shall retain all rights, title and interest in and to that Product Identity.
8. Identification: If you distribute Open Game Content You must clearly indicate which portions of the work that you are distributing are Open Game Content.
9. Updating the License: Wizards or its designated Agents may publish updated versions of this License. You may use any authorized version of this License to copy, modify and distribute any Open Game Content originally distributed under any version of this License.
10. Copy of this License: You MUST include a copy of this License with every copy of the Open Game Content You Distribute.
11. Use of Contributor Credits: You may not market or advertise the Open Game Content using the name of any Contributor unless You have written permission from the Contributor to do so.
12. Inability to Comply: If it is impossible for You to comply with any of the terms of this License with respect to some or all of the Open Game Content due to statute, judicial order, or governmental regulation then You may not Use any Open Game Material so affected.
13. Termination: This License will terminate automatically if You fail to comply with all terms herein and fail to cure such breach within 30 days of becoming aware of the breach. All sublicenses shall survive the termination of this License.
14. Reformation: If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable.
